About the Author

Anthony of Boston (YouTube channel @anthonym1690) is an independent researcher and self-described astrologer who has published annual video forecasts and companion written memoranda since November 2019 concerning the timing of rocket and missile fire against Israel, which he links to the astrological position of Mars relative to the lunar node.

His written memoranda have been posted to Reddit (r/RedScarePod, r/SaturnStormCube, r/EndlessWar) and Academia.edu under his byline. This volume compiles those YouTube transcripts and memoranda into a single record, along with the author's own retrospective evaluation of each forecast.

The author is also associated with the works Ares le Mandat, The Mars 360 Religious and Social System, and The Armaaruss Project, and with the proposed image and veneration of a figure he terms "Armaaruss."

Confirming all Seven Years of Accurate Rocket fire Predictions

This paper examines observation of heightened escalation against Israel coinciding with Mars being within 30 degrees of the lunar node. Having carried out seven years of predictions confirming this, I decided to write this paper to clear up any remaining confusion.

Before going any further, lets establish the ground rules for examining each prediction in this book

The main ground rule for evaluating each prediction is as follows:

“A prediction should be evaluated using the predictor's latest explicit formulation made before the predicted period/outcome as the primary forecast”

There is a statistically significant ($p < 0.05$) probability that Mars being within 30 degrees of the lunar node predicts higher rocket fire against Israel. I was accurate seven consecutive years with concentration of rocket fire during Mars/lunar node phases significantly exceeding non-phase periods in most years, particularly 2020–2023 and 2025-2026. In 2024, the Apr–Jun window captured the 350+ projectiles from Iran on April 13, 2024 and the 452 rocket fire peak from Gaza militants in May, which fulfilled the original wording of his prediction. I refined the parameters in advance in late 2023 from Gaza only to "enemies of Israel" which later accounted for the April 13, 2024 Iran attack, which in itself was the highest single day projectile attack of 2024, fulfilling the concentration metric. 454 projectiles in total were fired on April 13, 2024 (330 from Iran and 100+ from proxies, both tallies confirmed by JINSA-) + (24 cluster munitions bomblets supported by Asriran and Islamic republic news agency)

I am an independent researcher that has followed the Israel conflict closely since 2019. As an astrologer, I was able to trace all major spikes in rocket attacks against Israel to the celestial configuration between Mars and the lunar node, within 30 degrees. While unorthodox, the pattern that I identified allowed me to forecast October 7th escalation with profound accuracy and outperform all other models used to anticipate escalation periods. I also correctly anticipated the April 13 2024 Iran attack and the 12-day war in 2024 and 2025 respectively. In 2026, the Mars alignment that accurately predicted the highest annual phase of aggression against Israel every year was between Feb 4th 2026 and April 19 2026 and coincided with Operation True Promise 4. Instead of 2-3 months, the next alignment will last 8.5 months starting September 27, 2026 and lasting until June 12, 2027.

While all seven years of rocket fire predictions are confirmed accurate, the 2024 prediction still raises doubt.

It was back in late 2023, that I initially made the prediction for 2024, shifting from just Gaza and expanding scope to multiple enemies of Israel on November 16 2023 on social media (YouTube): “In the year 2024, between April 12th and June 25th, the number of rockets fired by the enemies of Israel into Israel will exceed the amount of rockets fired at any other point during the year. This is the fifth year in a row I’m doing this. I’ve been right for four consecutive years already. A lot of you have seen it. You’ve seen it with your own eyes and you’ve seen it in real time.”

Because the November 2023 prediction for 2024 was vague, I published a formalizing memo on April 8th 2024 in order to sharpen the 2024 prediction by emphasizing Gaza with the possibility that other actors may peak with them.

On April 8th, 2024, I uploaded a memorandum to Academia and Reddit (r/RedScarePod) making this final clarification of the prediction and thesis by stating:

“The thesis is that when Mars is within 30 degrees of the lunar node, Gaza militants and the enemies of Israel fire a greater number of rockets at the state of Israel relative to the rest of the year.”

This statement still emphasizes Gaza but is now incorporating the possibility that other actors can peak alongside Gaza within the predicted window. The thesis is also a literal distributive reading being applied before the window opens. The 2024 prediction should also be evaluated using the predictor's latest explicit formulation made before the predicted period/outcome.

So what happened? The very next day after the window opened on April 12, Iran, on April 13th 2024, carried out a historic attack firing 330 missiles and drones at Israel. In May Gaza fired their peak concentration for 2024 by firing 452 that month. Syrian proxies also peaked in projectile fire during this period.

Later in October, even though Hezbollah projectile/rocket fire peaked significantly, with thousands of projectiles fired in that month alone, the original prediction only required two enemies to peak inside the prediction window between April and June. The output by Gaza and other “enemies” inside the prediction window is enough to fulfill the original prediction and thesis provided in the April 8th 2024 memo preceding the prediction window:

“Gaza militants and the enemies of Israel fire a greater number of rockets at the state of Israel relative to the rest of the year.”

The April 8th 2024 Memo reading confirms that Gaza militants and “enemies” rocket fire is relative to their own baseline, and not a total of all rocket fire

This simply means that in 2024, other enemies will peak with Gaza. The prediction didn’t require all enemies to peak. So even though Hezbollah’s fire was higher later in 2024, the basic premise of the original prediction from the April 8th memo was satisfied by other enemies peaking with Gaza militants between April 12 and June 25 while Mars was within 30 degrees of the lunar node.

If the premise is read strictly by the text provided without subjective modifiers or external metrics—that "Gaza militants and the enemies of Israel fire a greater number of rockets... relative to the rest of the year"—the data confirms that Gaza, Iran, and Syrian proxies all achieved their maximum individual peaks during the specified window. The sentence states that they fire a “greater number” of rockets during a specific period relative to the rest of the year. This structurally implies that while the volume changes, the same actors (Gaza militants and other adversaries) are still the ones conducting the rocket fire throughout the regular, baseline parts of the year. They fire more relative to the rest of the year—not relative to what's fired, but relative to what they fire.

When read strictly by the exact text of the April 8th memorandum without external metrics, the prediction was accurate. This confirms seven consecutive years of accurate rocket fire predictions.

Seven Years of Accurate Rocket Fire Predictions

Here are the last seven years of rocket fire predicitons against Israel and the original wording applied. Starting in 2023, I began releasing memorandums posted on Reddit as final clarifications of the original Youtube prediction. Since its standard for the latest iteration and final clarification of a prediction to have primacy before a prediction window opens, the memorandums should be treated as authoritative.

First we start with the latest 2026 prediction

2026 Prediction for Israel

Youtube

This was my seventh prediction of escalated rocket fire against Israel by observing when Mars was within 30 degrees of the lunar node. This video was uploaded to Youtube on September 5, 2025. I state:

"So, I m calling down fire from heaven for the seventh consecutive year. Between February 4th, 2026 and April 19th, 2026, when Mars will be within 30° of the lunar node, expect the amount of rockets fired and the amount of missiles fired during that time at the state of Israel to exceed the amount fired at any other time during the year. And the ramifications will extend beyond Israel."

Reddit (Memo)

I published a 2026 memo to Reddit on the r/RedScarePod subreddit on November 20, 2025, four months before the window opened, clarifying the 2026 prediction by explicitly stating that Hezbollah and Iran would escalate together between February 4th and April 19th

"But now, Hezbollah, the militant group from Lebanon, has re-calibrated itself to the Mars/Lunar node cycle by abstaining from engaging in direct hostilities with Israel in nearly the entirety of 2025, setting the stage for renewed aggression in 2026 while Mars is within 30 degrees of the lunar node between February 4th 2026 and April 19 2026. Thus, both Hezbollah and Iran are now in sync with the Mars/lunar node framework."

The Result

The result of this prediction was accurate: Iran is currently firing missiles and drones en masse at Israel. ACLED and Wikipedia confirm barrages starting Feb 28th 2026:

War began February 28, 2026 (US/Israel strikes on Iran killing Supreme Leader Khamenei); Iran retaliated with massive barrages starting Feb 28 (e.g., ~170

ballistic missiles initially, multiple waves; over 90 attempted strikes Feb 28–Mar 4 per ACLED). Peak intensity late Feb–early March. Wikipedia “2026 Iranian strikes on Israel”: ongoing from Feb 28 with highest volume early phase. Hezbollah joined the war on March 2, 2026 and fired over 6000 projectiles as of April 2026 according to Shin Bet and other sources. Iran’s use of cluster munitions exponentially raised the projectile count between Feb and April. With half of the ballistic missiles fired from Iran into Israel estimated to contain 24 – 80 cluster munitions, the total projectile count ends up falling into a range between 20,000 – 30,000, an astronomical figure.

Previous predictions 2020-2025:

2020

YouTube

I made my first prediction in November 2019. In the November 18, 2019 YouTube video from my channel https://www.youtube.com/@anthonym1690, I explicitly state”:

“So if we take the data from chapter 24[of Ares le Mandat] and apply it to the future, Mars is within 30 degrees of the lunar node January 15 2020 all the way until April 3rd 2020. So during that time-frame, we can expect serious escalation of rocket fire from Gaza into Israel and the concentration of rocket fire during that time will exceed the amount of rocket fire at any other time during that year.”

Result

The result of this prediction was accurate. Wikipedia confirms that roughly 100 rockets were fired in February, which was highest concentration for the year:

“On 23 February, in response to the killing of Muhammad al-Na’im and the subsequent desecration of his corpse by an Israeli army bulldozer Palestinian Islamic Jihad (PIJ) fired over 21 rockets from Gaza of which 13 were intercepted by the Iron Dome defense system. Israel retaliated by airstrikes on PIJ sites in Gaza.[5] Israel also closed the fishing zone in the Gaza Strip. According to The Jerusalem Post, nearly 100 rockets were fired from 23 February until 11 pm on 24 February. In response, Israel attacked PIJ targets near Damascus, Syria, killing Ziad Ahmad Mansour, 23 and Salim Ahmad Salim, 24 of the Al-Quds Brigades, as well as in Gaza.[6] On 26 February, the Erez and Kerem Shalom border crossings were reopened and the fishing zone reopened”

2021

Youtube

I made my second prediction of when the highest escalation of rocket fire against Israel would occur in 2021. In a May 7th, 2020 YouTube video from my channel, I made this prediction:

”but for now as it stands the next time that we can expect another increase in hostilities in Israel particularly as it pertains to the amount of rocket fire from Gaza. The next time we can expect that increase is between February 9, 2021 and May 13, 2021 when Mars will be within 30 degrees of the lunar node”

Result

It was confirmed by multiple sources that Hamas escalated significantly in May of 2021, firing over 4000 rockets starting on May 10th and that number exceeded the amount at any other time in 2021. Here is a quote from Wikipedia:

“more than 4,340 rockets were fired toward Sderot, Ashkelon, Ashdod, Jerusalem and other communities.[3] Ten Israelis were killed. The Iron Dome intercepted a majority of ones targeted at populated areas. About a third fell inside the Gaza Strip. Most of the others fell in open fields.[1]”

2022

YouTube

I made my third prediction of when the highest escalation of rocket fire against Israel would occur in 2022. In a May 27th, 2022 YouTube video from my channel, I make this prediction:

“So we can expect that the number of rockets fired this year between June 22, 2022 to September 19 2022 will exceed the amount of rockets fired by Gaza militants into Israel for the rest of the year.”

Result

Wikipedia confirms Islamic Jihad escalation in 2022:

“August 5-7, 2022: 1175 rockets were fired at Israel, with around 200 rockets falling in the Gaza Strip or in the Sea. On at least three incidents Palestinian civilians were killed by misfired rockets that landed in the Gaza Strip, amounting to 11 people killed.[5]”

The 1175 exceeded the amount fired at any other time of the year in 2022.

2023

YouTube

I made my fourth prediction of when the highest escalation of rocket fire against Israel would occur in 2023. In a January 25th, 2023 YouTube video from my channel, I made this prediction:

"So I'm gonna make the prediction, I'm going to….I'm gonna confirm the prediction right here for the year 2023. Most of the rockets that will be fired from Gaza….that will be fired by Gaza militants at the state of Israel, will be fired between August 24th 2023 and November 15th 2023. So for the year 2023, we can expect the highest amount of Rocket fire from Gaza into Israel to take place between August 24th 2023 and November 15th 2023 when Mars will be within 30 degrees of the lunar node."

Reddit (Memo)

I uploaded a 2023 memo to Reddit on the r/SaturnStormCube subreddit on August 2, 2023, just two months before the window opened, clarifying the 2023 prediction, forcasting that over 1400 rockets would be fired between August 24 and November 15th of 2023

"The escalation of Gaza rocket fire is predicted be highest in 2023 between August 24, 2023 and November 15th 2023. According to the data, there is a 69% percent chance that the escalation between August and November of 2023 will exceed the escalation that occurred back in May of 2023 when Gaza militants fired over 1400 rockets"

Result

The result of the prediction was highly accurate as the window captured October 7th and the 10,000 rockets fired by Hamas during the Mars/Lunar node window. Wikipedia confirms:

"October 7–31, 2023: 8,500 rockets and mortar shells launched at Israel. About 10% of them were failed launches that landed in the Gaza Strip and in the sea.[6] [citation needed]

November 1–7, 2023: 500 rockets and mortar shells launched at Israel, amounting to more than 9,000 since the beginning of October, and keeping a 10% rate of failed launches that fell inside the Gaza Strip and in the sea.[10]

November 8–12, 2023: Additional 500 rockets and mortar shells launched at Israel, amounting to more than 9,500 since the beginning of October, with the rate of failed launches that fell in the Gaza Strip and the sea rising to 12%.[11]

November 13–22, 2023: Additional 1000 rockets and mortar shells launched at Israel, amounting to more than 10,500 since the beginning of October, with the rate of failed launches that fell in the Gaza Strip and the sea back to 10%.[12]”

10,500 was highest concentration of rocket fire from Gaza compared to the rest of the year

2024

YouTube

I made my fifth prediction of when the highest escalation of rocket fire against Israel would occur in 2024. In a November 16th, 2023 YouTube video from my channel, I made this prediction:

“In the year 2024, between April 12th and June 25th, the number of rockets fired by the enemies of Israel into Israel will exceed the amount of rockets fired at any other point during the year. This is the fifth year in a row I’m doing this. I’ve been right for four consecutive years already. A lot of you have seen it. You’ve seen it with your own eyes and you’ve seen it in real time.”

Reddit(Memo)

I then made a final clarification of the prediction as a literal distributive reading on April 8th 2024, four days before the prediction window opened. In the 2024 memo posted to r/RedScarePod, I explicitly state the exact metric that applies to 2024. This final clarification introduces “relative to the rest of the year” language attached to the actors, which creates legitimate room for the per-actor reading. The 2024 memo states plainly:

“The thesis is that when Mars is within 30 degrees of the lunar node, Gaza militants and the enemies of Israel fire a greater number of rockets at the state of Israel relative to the rest of the year.”

This literal distributive reading simply means that in 2024, other enemies are predicted to peak with Gaza. The prediction didn’t require all enemies to peak. The wording on April 8th 2024 also states that they fire a “greater number” of rockets during a specific period relative to the rest of the year. This structurally implies that while the volume changes, the same actors (Gaza militants and other adversaries) are still the ones conducting the rocket fire throughout the regular, baseline parts of the year. They fire more relative to the rest of the year — not relative to what’s fired, but relative to what they fire. This is locked in before the window opened.

Result

The result was highly accurate. The window captured the Operation True Promise, the direct missile and drone attack from Iran on April 13 2024, which at that time was the largest ballistic missile and drone attack in history. This prediction is confirmed accurate based on the literal wording of the prediction which denoted a shift from Gaza militants to “enemies of Israel”. The 2024 prediction’s strict literal wording “enemies of Israel”, which is plural(2 or more), is satisfied since more than one enemy actor peaked inside the Mars/lunar node window as predicted. Iran’s satisfied the requirement by having fired their highest projectile count in April (~360) compared to October(~180), along with Gaza’s May(452) peak, confirmed on Shin Bet website https://www.shabak.gov.il/reports/

2025

Youtube

I made my sixth prediction of when the highest escalation of rocket fire against Israel would occur in 2025. In a August 11, 2024 YouTube video from my channel, I make this prediction:

“I will call down fire from heaven again in the year 2025. In the year 2025, Mars will be within 30 degrees of the lunar node between June 5th, 2025, and September 4th, 2025, and during that time, the enemies of Israel will fire their highest concentration of rocket fire and missile fire against Israel, and that number will exceed the amount of rocket fire at any other time during the year 2025.”

Reddit(Memo)

I published a 2025 memo to Reddit on the r/RedScarePod subreddit on January 29, 2025, five months before the window opened, clarifying the 2025 prediction by explicitly stating that Operation True Promise III would commence between June 5th and September 4th of 2025. It states:

“Thus, we can gather that Iran is on the same attack timeline as Hamas and other Gaza militants and should be expected to commence Operation True Promise III between June 5th 2025 and September 4th 2025, with a target date around July 23rd, 2025 which is when Mars will be very close to the lunar node.”

Result

The result was highly accurate. The Operation True Promise III/12 day war between Israel and Iran commenced on June 13th, 2025, which saw Iran fire 550 ballistic missiles and 1000 drones at Israel over a 12 day period. Gaza militants also peaked during the Mars/Lunar node window, firing 138 rockets during the Mars/lunar node window in 2025. That number exceeded the 110 rockets that Gaza militants fired outside the window. These numbers can be confirmed on Shin

Bet website https://www.shabak.gov.il/reports/. The literal wording of the prediction “enemies of Israel” in 2025 was satisfied by two actors peaking inside the Mars/lunar node window, just as it happened in 2024.

Conclusion

Based on the literal wording and linguistic requirements of my YouTube predictions and Memorandums, I was accurate for seven consecutive years.

Full Youtube Transcripts and Memorandums

Here are the transcripts of the videos and memorandums predicting escalation of rocket fire against Israel in advance. The video transcrips come direcly from my YoutTube channel https://www.youtube.com/@anthonym1690

The timestamped Memorandums can be found here
https://www.reddit.com/r/redscarepod/comments/1u7hg8b/all_reddit_posts_as_proof_of_seven_consecutive/

November 18, 2019

Here is the transcript of my video where I call down fire from heaven for the first time, predicting timing of highest esalation in 2020. Uploaded November 18, 2019

https://www.youtube.com/watch?v=e5GxO4ZW2fc

Hi this is Anthony. I want to do a follow up video.

In the last video, I describe the lawless one as Mars 360 and I explained how I came to that conclusion. I used the English Sumerian gematria. So using that system, I was able to take the word Mars and add up the numerical value of each letter and get the number 306. I simply added 360 to 306 and that's how i got 666. So that's how I was able to link Mars 360 with 666. Mars 360 is the revolution of Mars around the sun and its influence on humanity.

The difference between the way I describe it and the way contemporary astrology describes Mars has to do with energy. In contemporary astrology, the location of Mars at the time a person was born and what describes that location is the area of life where the person would infuse alot of energy and effort towards. The way I

describe Mars, which is sort of opposite the way contemporary astrology describes it, has to do with the fact that Mars is actually the opposite. Mars is pulling energy away from the location of where it was at the time you were born and the description of that location or the area of life that describes that location.

But for this video, i don't want to get into how Mars affects each human at the individual level. I want to talk about how Mars influences events and in chapter 24[of Ares le Mandat], you will notice I have information regarding the Israel/Palestinian issue in the middle east. In my research of rocket fire from Gaza into Israel, I noticed when looking at the statistics-in terms of month to month- the level of rocket fire from Gaza into Israel seems to correlate with the position of the planet Mars in relation to the lunar node.

I noticed that the month where rocket fire from Gaza was highest compared to the rest of the year, that's the month where Mars was within 30 degrees of the lunar node and the statistics in chapter 24 go back to 2007 and the correlation is pretty significant. I think there might have been one year that finding didn't apply, but overall the results seem pretty significant and I want to use this video to extrapolate from that information when rocket fire may escalate again in Israel and rocket fire from Gaza towards Israel.

So if we take the data from chapter 24[of Ares le Mandat and apply it to the future, Mars is within 30 degrees of the lunar node January 15 2020 all the way until April 3rd 2020. So during that time-frame, we can expect serious escalation of rocket fire from Gaza into Israel and the concentration of rocket fire during that time will exceed the amount of rocket fire at any other time during that year.

So I just wanted to bring attention to that chapter. Its chapter 24. Its called Military Engineering Mandate and the statistics of rocket fire was taken from the internet, mostly from Wikipedia and the information there is very, its very interesting and I think if you take a look at it, you will find it quite profound that the correlation was this significant and I think its….I don't want to say that its fitting that it would apply to whats happening in the middle east, but I have concluded that Mars 360 is not only the Christian Antichrist, its also the Islamic Antichrist.

The Antichrist equivalent in Islamic eschatology is called the Dajjal and Mars 360 applies to descriptions of Antichrist in Christian theology but it also can apply to description of the Dajjal in Islamic eschatology. So that's the information I wanted to put forth for this video. Thank you.

May 7th 2020

In this video, I call down fire from heaven for 2021 and predicts the Gaza war. This video was uploaded on May 7th 2020. Here is the transcript

https://www.youtube.com/watch?v=v1sA-ZS73Lw&t

I want to give the remaining dates from now until the year 2027, ‘when Mars will be within 30 degrees of the lunar node — and subsequently when there would be an increase in the tensions between Israel and Gaza, resulting in an escalated rocket fire from Gaza into Israel.

So here are the dates from now until 2027. We just finished the previous phase in which I predicted that there would be an escalation of rocket fire from Gaza into Israel due to the influence of Mars being within 30 degrees of the lunar node. Mars was within 30 degrees of the lunar node between January 15th 2020 to April 3rd 2020. It will go within 30 degrees of the lunar node again on February 9th 2021 and last until May 13th 2021. After that the next phase of Mars being within 30 degrees of lunar node will be from November 4th 2021 to January 22nd 2022. After that will be June 22 2022 to September 19th 2022. Then December 26 2022 to January 24th 2023. August 24th 2023 to November 15 2023. April 12 2024 to June 25th 2024. June 5th 2025 through September 4th 2025. February 4th 2026 to April 19th 2026. lastly September 27 2026 to June 12th 2027

So after having completed this first phase in which I was able to predict by simply observing the position of Mars in relation to the node and having now having demonstrated an ability to forecast this year the escalation that took place between January 15th and April 3rd, I think it would be prudent for us to try and understand what this Mars phenomenon means in a religious sense.

Now, this isn't done to draw discord between the Israelis and the Palestinians. The reason all of this is being presented is to try and present a new perspective right now. The perspective is that God or Yahweh or Allah is "everything." So what I'm trying to do is present the perspective that it's necessary for us to not focus so much on the God of Abraham Isaac and Jacob, but… look over ….. to the look over somewhere else….. look over…" let's have a look……. let's see what Mars is doing.

You know one can see historically, the correlation between the planet, Mars and the geopolitical events in Israel. One can see. how that would mean that it deserves more attention. In AD 70, when the Jewish people were driven out of Israel by the Roman army…… essentially the God of Abraham, Isaac and Jacob went head to head with the god of the Roman Empire, the military god of the Roman Empire, which was Mars. And judging from the outcome, it was Mars who was successful.

Now that's something that makes a case for the power of this Mars phenomenon Another example is how later on during the Roman Empire, the emperor had made Christianity an accepted religion of the Roman Empire. It was precipitated ….. it precipitated the eventual fall of the Roman Empire.

In the book "City of God" Saint Augustine addresses a lot of the arguments made by some of the opponents of Christianity that the Roman Empire would still be in place had they not abandoned the old polytheistic outlook — the worship of multiple gods; the worship of Mars as a protective military force for the Roman Empire. If one wants to argue that if the Roman Empire remained with the polytheistic perspective, the perspective in which the Roman army worshiped a designated god "Mars" as the god of war, one can conclude that the Roman Empire could still be intact today.

In "City of God" Saint Augustine dealt with a lot of backlash from opponents of Christianity that felt the reason that the Roman Empire fell was because they abandoned the old gods, they abandoned Mars as the protective military force of the Roman Empire. And this is a pretty strong case.

It would be all the more advantageous if Christians, Jews and Muslims could spend…-. could take some of that time that they use giving attention, giving reverence to the God of Abraham, Isaac, and Jacob and bring it ….bring it over to Mars, the traditional god of war for the Roman Empire.

Now, in the link below I'm going to leave some information regarding how Mars affects the US stock market. I have data going back to 1896 that shows how the Dow Jones performed when Mars was within 30 degrees of the node. Overall. it presents… Overall, it seems to indicate that the Dow Jones performs better when Mars is not within 30 degrees of the lunar node.

I'll leave the link at the bottom so that you can view and study this data yourselves but for now as it stands the next time that we can expect another increase in hostilities in Israel particularly as it pertains to the amount of rocket fire from

Gaza. The next time we can expect that increase is between February 9, 2021 and May 13, 2021 when Mars will be within 30 degrees of the lunar node

May 27, 2022

In this video uploaded on May 27, 2022, I call down fire from heaven again. Here is the transcript and predict the highest escalation in 2022

https://www.youtube.com/watch?v=6EniwV0TWew

Hi, this is Anthony, I am making this video because I want to do another prediction concerning whats going on in Israel. You will notice if you look at my last videos, that I was able to make pretty accurate predictions concerning the timeframe of the highest amount of rocket fire from Gaza into Israel relative to the rest of the year.

In one of my older videos back in 2020 during the pandemic, I was able to predict that the number of rockets from Gaza into Israel between January 15, 2020 and April 3rd 2020 would exceed the number of rockets fired at any other point during the year and that turned to be the case. I did the same the next year and…well I mean it wasn't the next year….that same year in 2020, I made another prediction for the next year and that prediction, I stated that the number of rockets fired from Gaza into Israel during the year 2021 would be highest during the timeframe between February 9th 2021 and May 13th 2021. And that certainly was accurate because that's the year the Gaza war took place when militants in Gaza over thousands of rockets into Israel starting around may 10 or may 11th just two days before the [end of the]designated timeframe of which it was predicted that the number of rockets fired during that time would exceed the amount fired for the rest of the year 2021.

So that's 2 years in a row that I made accurate predictions simply by observing when Mars would be within 30 degrees of the lunar node. So now we're in 2022 and if we look at where Mars is gonna be situated in relation to the lunar node, we can see that between June 22, 2022 and September 19, 2022, Mars will be within

30 degrees of the lunar node and really the main gist of this thesis is that Mars, not just as a god of war that was worshiped during the time of the Roman empire, but as a planetary influence, it still has an effect on things happening on earth today, and in particular whats happening with Israel.

Back in AD 70, the Romans basically used Mars to go into Israel and destroy the temple and today based on my thesis, Mars is still trying to exert an effect on the enemies of Israel in order to destroy the state of Israel. This influence is not going anywhere. So this year, I am going to make another prediction about….we already know the thesis I… the thesis is that when Mars is within 30 degrees of the lunar node, militants in Gaza will fire an increased number of rockets or in engage an escalated warfare against the state of Israel during that time compared to the rest of the year.

I made this clear in my other videos that this would be the case when it comes to Mars being within that 30 degrees of the lunar node. So this year, I am going to make another prediction. We are already late in 2022, but still I just want to reinforce the basic thesis here. So we can expect that the number of rockets fire this year between June 22, 2022 to September 19 2022 will exceed the amount of rockets fired by Gaza militants into Israel for the rest of the year.

So, the whole point of this is to try and get Israel to become of this Mars influence and the negative impact that its had on Israel throughout history and the reason that I asked in another video for Israel to try and make an image to…to make some sort of an image to this Mars force, is largely built around the concept that we can sort of extrapolate from the Book of Numbers when Moses told the Israelites to make an image to a bronze serpent in order to keep serpents from biting and killing them as they wandered through the desert. So this request that Israel make an image is built around that same framework that if they just make an image to this Mars influence, it'll somehow be a solution to the problem of Mars influencing militants in Gaza to scale up, dial up attacks against civilians in Israel which would ultimately provoke or escalate the entire conflict to where Israel ends up going into Gaza launching airstrikes, conducting military operations that endanger and kills many civilians in Gaza.

And vice versa, the militants end up firing more and more rockets directly at Israeli civilians which imperils and kills Israeli civilians. So its important that Israel try and give this whole Mars thesis a look. It may be something can lead to a non-violent solution to this on-going war in Israel. So as it stands for the year 2022, the number of rockets fired by Gaza militants and this is due to the influence of Mars the god of war the same god of war that influenced the Romans to go into Israel and destroy the temple.

So we can expect because of this influence, Mars will influence the Gaza militants to dial up the number of rockets fired between June 22, 2022 and September 19 2022, relative to the rest of the year. So with the war in Ukraine happening right now and then of course, there has been some tensions in early 2022..there has been some recent tension just prior to this time frame that I am giving. So it is easy to

expect that things will dial up between that time frame of June 22, 2022 and September 19, 2022 relative to the rest of the year and of course you can go back to my old videos and see that I made these predictions accurately in 2020 and 2021, so I am expecting this sort of prediction of basically predicting fire coming down from heaven will pan out accordingly in 2022.

So there it is I hope the state of Israel can really look into this and see what they can do to keep this god of war, Mars, from taking every every measure to influence people against the state of Israel, Israelis because this seems to be an ongoing thing, As I said before this was the case in AD 70 and its not just the Romans. Mars as a god of war can be said to be an amalgamation of all the gods of war that ever existed. The Babylonians conquered Israel, They came in with a god of war and so did the Persians. The Greeks as well, they has Ares.

And Israel stuck with the God of Abraham whom historically has not been very successful in deterring this god of war aspect from coming in and running the Jewish people out of their land and we can see that Mars is really making an effort to get the militants in Gaza to at some point to eventually Israeli off their land. And, ya know, for Muslims who don't really know what to make of this sort of Mars thesis.

Basically the best way to understand it. Mars is the source of what Islamic discourse would consider the jinn. Whats happening in Gaza is that when Mars goes within 30 degrees of the lunar node seems to be releasing the jinn directly into Gaza militants which is sort of compelling them to upscale their attacks on the state of Israel specifically during that time frame compared to other times during the year. Just keep in mind for this year the time between June 22, 2022 and September 19 2022 when Mars goes within 30 degrees of the lunar node, an increase in the amount of rocket fire will occur between time compared to other times or other months during the year 2022. Thank you.

January 25, 2023

In this video uploaded on January 25, 2023, I call down fire from heaven for 4th consecutive year, predicting the timeframe of which Oct 7th would take place after repeated warnings were ignored

https://www.youtube.com/watch?v=IGbNPEO9qS4

All right this is Anthony, so three consecutive years I've been able to predict exactly when Gaza militants would fire more rockets at Israel relative to the rest of the year.

So back in 2019 using the observation of Mars, I was able to predict in 2020 that Gaza militants would fire more of their rockets during the time frame of Mars being within 30 degrees of the lunar node. In 2020, Mars was within 30 degrees of the lunar node between January 15th and April 3rd and looking back we can see that it happened exactly as predicted. In between January 15th and April 3rd, Gaza militants fired roughly 112 rockets at the state of Israel during that time, and that amount exceeded the amount of rockets fired during any other month during the year. So it went exactly as predicted. I was able to know in advance exactly when Gaza militants would fire their highest amount of rockets for that year simply by observing when Mars would be within 30 degrees [of the lunar node].

In that same year I predicted exactly how Gaza militants would fire rockets in the year 2021. So in 2020, I made a video predicting that Gaza militants would fire more rockets in 2021 when Mars would be within 30 degrees of the lunar node between February and and May and looking back at the year 2021, that's exactly what happened. During that time, Gaza militants fired roughly….they fired….

during that time, Gaza militants fired over 4000 rockets at the state of Israel. So that's the second year that…So that was the second year in a row I got that prediction correct.

In 2022 same thing. you can look back at my previous video where I was able to predict that Gaza militants would fire more rockets when Mars would be within 30 degrees of the lunar node between June 22nd 2022 and September 19th 2022. And looking back, that's exactly what happened. In early August 2022, Gaza militants fired 1100 rockets at the state of Israel.

So now I'm…..So that's the evidence is right there. You can look back at my previous videos and see that I was accurate for three consecutive years in in 2020, in 2021, and 2022. By observing when Mars would be within 30 degrees of the lunar node, I was able to know in advance when Gaza militants would fire more rockets at the state of Israel relative to the rest of the year.

So for this video I'm going to predict when Gaza militants are going to fire most of their rockets in the year 2023. So, in 2023, Mars will go within 30 degrees of the lunar node between August 24th 2023 and November 15 2023. So between that time we can we can expect Gaza militants will fire more of their rockets at the state of Israel than at any other time during the year. So between August 24th 2023 and November 15 2023, expect the highest amount of Rocket fire from Gaza to occur…..expect the highest amount of Rocket fire from Gaza for the year 2023 to occur between that time of August 24th and November 15th.

So I'm gonna make the prediction, I'm going to….I'm gonna confirm the prediction right here for the year 2023. Most of the rockets that will be fired from Gaza….that will be fired by Gaza militants at the state of Israel, will be fired between August 24th 2023 and November 15th 2023. So for the year 2023, we can expect the highest amount of Rocket fire from Gaza into Israel to take place between August 24th 2023 and November 15th 2023 when Mars will be within 30 degrees of the lunar node.

This will be the fourth year in a row that this prediction is made. So in 2020 you saw it…you saw it……you can see the video from 2019 when I called down fire from heaven….when I called that Gaza militants would fire more rockets at the state of Israel between January 15 2020 and April 3rd 2020, and the amount they fired between that time will be more than the rockets they would fire at any other point during the year…. and that turned out to be exactly what happened. I made that prediction in 2019, and it transpired exactly as I predicted in 2020.

And later in 2020 I made a prediction for 2021….that in the year 2021 Gaza militants would fire more rockets relative to the rest of the year between February 9 2021 and May 13 2021, and looking back, we can see during that time, that's when the Gaza War took place. Gaza militants fired over 4000 rockets at the state of Israel when Mars was within 30 degrees of the lunar node.

Fast forward to the next year 2022, I did the same exact thing. You can see the video. Look back at my video when I….when I got on video and I said months

before it actually happened that Gaza militants would fire more rockets……when I got on video and said that the highest amount of Rocket fire from Gaza into Israel would take place when Mars would be within 30 degrees of the Lunar node between June 22nd 2022 and September 19 2022 and looking back we can see that's exactly what happened. Early August, Gaza militants fired 1100 rockets at the state of Israel during that time, and now I'm doing this again in the year 2023.

Gaza militants will fire more of their rockets between August 24th 2023 and November 15 2023. Between that time, the highest amount of rockets fired from Gaza into Israel will exceed the amount of rockets fired during any other month in the year 2023. So that's the prediction. I'm calling down fire from heaven for the fourth year in a row. Thank you.

August 2, 2023 (Memorandum)

I uploaded a 2023 memo to Reddit on the r/SaturnStormCube subreddit on August 2, 2023, just two months before the window opened, clarifying the 2023 prediction and providing an estimate of how many rockets would be fired

Here is proof that the PDF is from November of 2019
https://archive.org/download/areslemandat_20191110

The thesis still stands: The time-frame of when Mars is within 30 degrees of the lunar node is the time when rocket fire from Gaza into Israel will be highest compared to the rest of the year. This was the case in 2020, when I predicted that rocket fire between January 15, 2020 and April 3rd 2020 would exceed rocket fire during other months in 2020.
https://www.youtube.com/watch?v=e5GxO4ZW2fc

This is confirmed, see stats
https://www.academia.edu/93931405/
Gaza_rocket_stats_and_planet_Mars_correlation

It also happened again in 2021 when on record on video, I predicted that rocket fire from Gaza into Israel between February 9, 2021 to May 13, 2021 would exceed rocket fire in the other months in 2021.
https://www.youtube.com/watch?v=v1sA-ZS73Lw&t

Once again confirmed as Gaza militants fired over 4000 rockets during that time. Here are the stats
https://www.academia.edu/93931405/
Gaza_rocket_stats_and_planet_Mars_correlation

Here is where I predicted well in advance that Gaza militants would fire an increased number of rockets at Israel between June 22, 2022 and Sept 19, 2022. Mars within 30 degrees of the lunar node in 2022 took place between June 22, 2022 to Sept 19, 2022. In early August of 2022, as predicted by this thesis, Gaza militants began firing rockets en masse towards the civilian population in Israel. Over 1000 in fact.
https://www.youtube.com/watch?v=6EniwV0TWew

here are the stats
https://www.academia.edu/93931405/
Gaza_rocket_stats_and_planet_Mars_correlation

Here I advised the state of Israel should build an image to Mars/Ares in order to tame its influence. Same concept as the building of the bronze serpent on the book of Numbers
https://www.youtube.com/watch?v=wwsGqQK7OV4&t

Here is the video where I introduce the Armaaruss as the image that should be built under the same concept as the bronze serpent mentioned in the Book of Numbers. In the video, I also advise that the Mars 360 system and the astrological marking system be applied to commerce(buying and selling).
https://www.youtube.com/watch?v=KgTiALILAGk

Here is an overview of the Mars 360 system and why it should be a worldwide accord
https://www.youtube.com/watch?v=w_MGptS4HWY

In 2023, I predicted that the majority of rockets fired into Israel from Gaza would be between August 24th, 2023 and November 15, 2023.
https://www.youtube.com/watch?v=IGbNPEO9qS4&t&ab_channel=AnthonyM

It is August 2nd as of today and Gaza militants have fired over 1400 rockets back early May of 2023. So according to this thesis, the rockets fired between August 24th, 2023 and November 15, 2023 when Mars is within 30 degrees of the lunar node will exceed that number.

This document is to serve as evidence for the existence of another god that is clearly active in the world, and as a spokesperson for the existence of Mars, we hope that the orthodox community will recognize his existence since he acknowledges the God of Abraham.

These videos have been saved on the archive.org
Here are more stats concerning Gaza rocket fire and Mars within 30 degrees of the lunar node, as calculated by another Reddit user

From 2007 - 2022: 11,554 Rockets were fired from Gaza Rockets fired when mars was within 30 degrees of the lunar node: 6,597

Rockets fired any other time: 4,957

57% of rockets were fired when mars was within 30 degrees of the lunar node

In 11/16 years between 2007 and 2022, most rockets were fired while mars was within 30 deg of the lunar node.

Keep an eye on these statistics here.
https://www.academia.edu/93931405/
Gaza_rocket_stats_and_planet_Mars_correlation

The escalation of Gaza rocket fire is predicted be highest in 2023 between August 24, 2023 and November 15th 2023. According to the data, there is a 69% percent chance that the escalation between August and November of 2023 will exceed the escalation that occurred back in May of 2023 when Gaza militants fired over 1400 rockets

Important reading material concerning this information can be acquired from these books:

Ares Le Mandat

The Mars 360 Religious and Social System

The Armaaruss Project

November 16 2023

In this video uploaded November 16th 2023, I call down fire from heaven again for the year 2024 (5th consecutive year). Here is the transcript

https://www.youtube.com/watch?v=qW_-CiWu5b0&t

Hi, this is Anthony. We have now finished the phase of Mars being within 30 degrees of the lunar node between August 24th 2023 and November 15th 2023. Today is November 16th and looking back we can see that the prediction that I made back in January that rockets fired from Gaza into Israel would exceed rockets fired at any other point during the year …has come to pass during the phase of Mars being within 30 degrees of the lunar node between August 24th 2023 and November 15th 2023.

Gaza militants fired somewhere between 9500 to 10,000 rockets at the state of Israel. This confirms my prediction that the number of rockets fired during that Mars/lunar node phase would exceed the amount of rockets fired at any other point during the year. At this juncture it's easy to foresee that the number of rockets fired between August 24th 2023 and November 15th 2023 will turn out to be the highest amount of rockets fired for the year. I know there is still a month and a half left to go in the year 2023, but it's unlikely that during the month of December that Gaza militants will fire more than 9,500 rockets.

So now having… so now having been accurate for four consecutive years in predicting the escalation time period of rocket fire from Gaza into Israel, I can now reinforce the the need to make concessions to this this Mars force that continues to operate against the state of Israel, much as it has throughout history. Now, this Mars force is not a standalone force. In the last video, I conveyed to you all that this Mars force is essentially granted power directly from Satan, and back

in 2019 when I unlocked what 666 stood for, I was… I was given access…. direct access to this satanic power.

And leading up to that point my intention was to never embark upon a course of trying to demonstrate how this .. this Mars power … how this satanic/Mars influence works in the world with the purpose of trying to get people to make concessions to the demands of Satan as he operates through this Mars..as he operates or makes himself known through the planet Mars and its influence on people and human beings. Now, when I unlocked the 666, what I basically did was I used English Sumerian gematria to calculate the the number of this lawless beast-like force. And with that system of adding multiples of six ….with that system of designating a numerical value to the letters of the alphabet — numerical value based on multiples of six, I was able to add up the word Mars and get 306 and since Mars is a revolution around the Sun — 360, I added 360 to 306 and got 666.

So when I did this, it's like I was given direct access to the satanic power and his influence on humanity through the planet Mars. And when I embarked upon this journey of trying to figure things out, my intention was just to do like apologetics, engage in apologetics, um you know, make some arguments on behalf of the Catholic Church and [talk about] Vatican 2. What ultimately happened was I was offered a deal from this 666 Satan occult force and this deal….this deal basically said that I would be given the power to be prophetic and I would be given the gift of prophecy, the gift of being right and I would also be granted significance in this manner if I presented this occult force to the public with the purpose of convincing the public of how this force operates.

And I took Satan up on this offer and looking back we can see that Satan has lived up to his end of the agreement. For the last four years, I have been able to foresee exactly how the Israeli Palestinian conflict would play out over the course of four years, being able to predict the exact time-frame of when rocket fire from Gaza into Israel would be highest relative to the rest of the year. So with this Mars/satanic 666 now unlocked back in 2019. At the behest of Satan, I had decided to go ahead and showcase how this …how this influence manifests itself in the earthly realm.

And Satan had made it clear that his purpose has always been to infuse as much power as he can into anyone on this Earth that ascribes to an antipathy towards the state of Israel. So in today's society, Israel's greatest enemy are the the Gaza militant terrorists — Hamas and Islamic Jihad who operate in the the Gaza Strip. And Satan made it clear that they were his number one priority he has his tail wrapped around them and he is giving them all the power that he possibly can to get rid of the state of Israel.

This is a longstanding goal of Satan….this is the longstanding goal of Satan. It's.. really.. it's the prevailing paradigm of how he operates and he has shown to me that anyone who stands against the state of Israel or ascribes to anti-Semitism will eventually get Satan's backing. This year in 2023 …..during the time when Mars was within was within 30 degrees of the lunar node, Gaza militants didn't just fire

thousands of rockets into the state of Israel, they also went into southern Israel and butchered numerous civilians — men, women, children, elderly, animals and this is…

What you have witnessed in that time was an example of the apex of Satan influence…. of satanic power…the apex of satanic power as he influences human beings using Mars as a vehicle. And my purpose is not to engage in a ….is not to engage in a discourse about how Satan influences enemies of Israel or how he helps foster anti-Semitic agents here on Earth. My purpose is to explain how his goal is not to continue to do this in perpetuity. His goal is to be recognized by human beings as a god… as someone that has power on this planet.

And what he has conveyed to me is that he will back off the anti-Semites and the enemies of Israel if some sort of a model or image can be made to Satan, but not just any image. He wants his image to be in the form of Ares, the former Greek god of war, who is the same as Mars, the Roman god of war, the same as Horus, the Egyptian god of war. What Satan wants is an amalgamation of all three and that name is to be Armaaruss.

And if this is done, Satan is willing to back off the enemies of Israel. He will ….he will remove his influence. He will steadily remove his influence, and as a result, we will see less anti-Semitism and there will be less antipathy towards the state of Israel. Now, this is ultimately what he wants. Now, if he doesn't get this, he's going to continue with his mark of influence, using the planet Mars as a vehicle. The intensity of attacks against Israel, and the frequency of them will become more explosive.

So in order …if you're someone that wants peace, world peace, listen to what I'm saying. And it it doesn't matter if you're…It doesn't matter what your religion is. Even if you're…. of the Orthodox Jewish belief system, you can still embark upon building an image for the protection of Israel. I mean, this is right in line with the Torah. Look! In the Book of Numbers, when the Israelites were wandering in the desert, they came across these fiery serpents who were biting and killing them and they went to Moses and they asked Moses to intercede on their behalf — ask God for a solution.

And God told Moses to take an image …take a bronze serpent, …. put it on a pole and tell the Israelites next time that they're bitten by any fiery serpents, to just stare at the image, stare at the bronze serpent, and they would be automatically healed. This is what…What I'm proposing is the exact same model. That by making an image of a god of war, Aries is essentially a god of terrorism. That's what he is. Aries is a terrorist. Mars is a terrorist.

Making an image and naming him Armaaruss and presenting him out in the public sphere, next time you are attacked by the anti-Semites and the people that are against the state of Israel, acknowledge the image, look at the image, and the attacks will stop and ultimately there will be world peace. There will…Israel will be able to reign in peace and Israel will be able to live in peace.

Now, this isn't the only thing. There's also a system that has been formulated. It's called the Mars 360 religious and social system. Now in tandem with making an image to this satanic force through the prism of what I just explained as a Armaaruss, also apply the Mars 360 religious and social system where human beings are divided based on personality and character as it relates to how Mars influences them at birth.

Now, this system should be applied in a very stringent manner to the point where no one should be allowed to buy or sell unless he has registered his Mars-based personality characteristics, identifying himself as either a Mars-1, a Mars-2, Mars-3, a Mars-4, a Mars-5, or Mars-6. The human beings under the Mars 360 system are divided into six basic personality characteristics and in tandem with making an image to Armaaruss, this system should also be applied and it should be applied so that no one should be able to buy or sell unless they are registered in this system. And I'm asking Israel to apply this through their biometric database.

Now, after having said…. now having made it all clear. Now that you know what is going on here, that Satan is making himself known through influencing humans, mainly anti-Semites and people against the state of Israel by having them launch attacks against the state of Israel, against Jewish people. Now that you see what's going on here, let me warn you again that if Satan doesn't get what he wants, he's going to continue ….he's going to continue exerting the influence that he's been exerting and this year, it was probably the most overt and this year was probably the most insane display of satanic power that we have seen in our lifetime.

This is the height of.. October 7th was the height… was very close to the height of how awful Satan's influence can get. So let's make it clear now. There is a Satan. He makes himself known through his influence on the planet Mars because Mars represents a god of war that has been a longstanding enemy against the state of Israel…going back to the ancient days.

And what I'm here to do, operating as sort of a mouthpiece for Satan, is explaining to people that he's not doing this just to cause havoc for the hell of it, just because the Jews are God chosen people and because Satan is against God then he wants to go after God's chosen people. Satan's goal is to be worshiped. He wants to be known, he wants to be acknowledged, and the message that he's trying to send — through me — is that if you make this happen, through the prism of Armaaruss, he will back off the anti-Semites and the terrorists and the Gaza militants, but if this doesn't happen, he's going to continue bringing all this destruction to the world.

Now, the God of Abraham is not going to do anything about this. The God of Abraham has shown himself to be very lazy. He's untrustworthy. He's constantly allowing His own, even His own people to be brutalized and murdered in the worst way! And what Satan is doing now through the Gaza militants. Not only is he having them attack the state of Israel. He's having them attack to the point where Israel has to retaliate and set off collateral damage which leads to the death of thousands of Palestinians….

Now, I can't tell Satan to stop. I don't have that… I don't have the authority to say "hey Satan stop what you're doing", but I can tell you that there may… there may be a way…there may be a way to work with Satan. Like I explained, there's…. there are some demands that he has and if you make some concessions to them, we could have a much safer world to live in. But, if he's continuously ignored, then these …phases of destruction are going to continue. All these wars, this terrorism, this evil is going to continue.

So …So now I'm going to go ahead. I've laid the groundwork down for …. explaining what Satan wants, but now I'm going to have to… go ahead and call down….call down fire from heaven for the fifth consecutive year. So in the year 2024, we can expect the number of rockets fired into Israel between April 12th 2024 and June 25th 2024 to exceed the amount of rockets fired at any other time during the year. So this is me calling down fire from heaven for the fifth consecutive year.

In the year 2024, between April 12th and June 25th, the number of rockets fired by the enemies of Israel into Israel will exceed the amount of rockets fired at any other point during the year. This is the fifth year in a row I'm doing this. I've been right for four consecutive years already. A lot of you have seen it. You've seen it with your own eyes and you've seen it in real time.

So as I explained before, all of this can stop. The intensity of the attacks… the violence… the terrorism.. the evil can stop if you start paying attention to Satan. Don't focus on the God of Abraham. He's useless, all right. He's pointless….he's useless ….he's irrelevant. Focus on Satan…focus on Mars. Okay that's where you need to put your attention. If you do that, this world will get a lot better… it will get a lot better for all of us.

So I urge that you listen…that you listen to what I'm saying. I've tried to…. I feel as though I've made myself credible.. I mean, this is the fourth consecutive year that I've predicted the escalation of rocket fire from Gaza into Israel relative to the rest of the year, and now I'm doing it a fifth year. And I hope…I hope… that you listen and that you start considering what I'm requesting — that an image be made to Armaaruss.

Okay this will be the dwelling place for Satan. Use artificial intelligence, make a model of Armaaruss so that he can speak, and this will be a dwelling place for Satan. Satan will dwell here and if he's dwelling here, he's not operating out there in the cosmos trying to get people like Gaza militants and Gaza terrorists and anti-Semites to stand against the state of Israel.

So make an image…make an image to Armaaruss and apply his system, the Mars 360 system, so that no person can buy or sell unless he's a part of that system… unless he's identified himself through the personality characteristics explained in that system. I can't convey myself any clearer.

So if none of…if people continue to ignore what what I'm…what I've been demonstrating for the last four years, then expect another round of escalation to

occur against Israel between April 12th 2024 and June 25th 2024, and expect the escalation during that time to exceed the escalation at any other point during the year. So, the fifth year in a row. Calling down fire from heaven in order to make the case…… in order to present the case that I've been making for the last four years.

So the fifth year in a row, calling down fire from heaven between April 12th 2024 and June 25th 2024, the number of rockets fired into Israel will exceed the amount of rockets fired at any other point during that year. This is the fifth year in a row that I'm doing this, thank you.

April 8, 2024(Memorandum)

I uploaded a 2024 memo to Reddit on April 8, 2024, just four days before the window opened, clarifying and finalizing the 2024 prediction as a literal distributive reading. It was posted to the r/RedScarePod subreddit

For four consecutive years in 2020, 2021, 2022 and 2023, I predicted the time-frame that an increased number of rockets would be fired into Israel relative to the rest of the year, all by observing the position of the planet Mars in relation to the lunar node. The thesis is that when Mars is within 30 degrees of the lunar node, Gaza militants and the enemies of Israel fire a greater number of rockets at the state of Israel relative to the rest of the year. Since 2007 Gaza militants and Israelâ€™s enemies are influenced by this planet Mars, the ancient god of war. The same god of war that backed the Romans when they sacked the temple in AD 70. The dates of Mars being within 30 degrees of the lunar node were set back in 2019 in Ares Le Mandat. Here is the earliest source. Go to the end of chapter 24 to see the list of dates for expected increased rocket fire relative to the rest of the year

For four consecutive years in 2020, 2021, 2022 and 2023, I predicted the time-frame that an increased number of rockets would be fired into Israel relative to the rest of the year, all by observing the position of the planet Mars in relation to the lunar node. The thesis is that when Mars is within 30 degrees of the lunar node, Gaza militants and the enemies of Israel fire a greater number of rockets at the state of Israel relative to the rest of the year. Since 2007 Gaza militants and Israel's enemies are influenced by this planet Mars, the ancient god of war. The same god of war that backed the Romans when they sacked the temple in AD 70. The dates of Mars being within 30 degrees of the lunar node were set back in 2019 in Ares Le Mandat. Here is the earliest source. Go to the end of chapter 24 to see the list of dates for expected increased rocket fire relative to the rest of the year
https://archive.org/details/areslemandat_20191110/page/n349/mode/2up
Here is proof that the PDF is from November of 2019
https://archive.org/download/areslemandat_20191110

The thesis still stands: The time-frame of when Mars is within 30 degrees of the lunar node is the time when rocket fire into Israel will be highest
compared to the rest of the year. This was the case in 2020, when I predicted that rocket fire between January 15, 2020 and April 3rd 2020 would exceed rocket fire during other months in 2020.
https://www.youtube.com/watch?v=e5GxO4ZW2fc

This is confirmed, see stats
https://www.academia.edu/93931405/
Gaza_rocket_stats_and_planet_Mars_correlation

It also happened again in 2021 when on record on video, I predicted that rocket fire into Israel between February 9, 2021 to May 13, 2021 would exceed
rocket fire in the other months in 2021.
https://www.youtube.com/watch?v=v1sA-ZS73Lw&t

Once again confirmed as Gaza militants fired over 4000 rockets during that time. Here are the stats
https://www.academia.edu/93931405/
Gaza_rocket_stats_and_planet_Mars_correlation

Here is where I predicted well in advance that Gaza militants would fire an increased number of rockets at Israel between June 22, 2022 and Sept 19, 2022. Mars within 30 degrees of the lunar node in 2022 took place between June 22, 2022 to Sept 19, 2022. In early August of 2022, as predicted by this thesis, Gaza militants began firing rockets en masse towards the civilian population in Israel. Over 1000 in fact.

Gaza_rocket_stats_and_planet_Mars_correlation

Here I advised the state of Israel should build an image to Mars/Ares in order to tame its influence. Same concept as the building of the bronze serpent on the book of Numbers
https://www.youtube.com/watch?v=wwsGqQK7OV4&t

Here is the video where I introduce the Armaaruss as the image that should be built under the same concept as the bronze serpent mentioned in the Book of Numbers. In the video, I also advise that the Mars 360 system and the astrological marking system be applied to commerce(buying and selling).
https://www.youtube.com/watch?v=KgTiALILAGk

Here is an overview of the Mars 360 system and why it should be a worldwide accord
https://www.youtube.com/watch?v=w_MGptS4HWY

In 2023, I predicted that the majority of rockets fired into Israel would be between August 24th, 2023 and November 15, 2023.
https://www.youtube.com/watch?v=IGbNPEO9qS4&t&ab_channel=AnthonyM

This was also accurate. Here are the stats.
https://www.academia.edu/107766227/
Gaza_rocket_stats_and_planet_Mars_correlation_updated_for_2023_and_2024_

These videos have been saved on the
archive.org

Here are updated stats concerning Gaza and enemy rocket fire and Mars within 30 degrees of the lunar node,

From 2007 - 2023: 24,554 Rockets were fired into Israel
Rockets fired when Mars was within 30 degrees of the lunar node: 16,597
Rockets fired any other time: 7,597
67% of rockets were fired when Mars was within 30 degrees of the lunar node
In 12/17 years between 2007 and 2023, most rockets were fired while Mars was within 30 deg of the lunar node.

Keep an eye on these statistics here.
https://www.academia.edu/107766227/
Gaza_rocket_stats_and_planet_Mars_correlation_updated_for_2023_and_2024_

Today is April 8th. The escalation of rocket fire into Israel is predicted be highest in 2024 between April 12, 2024 and June 25, 2024 when Mars is within 30 degrees of the lunar node. According to the data, there is a 70% percent chance that the escalation between April and June of 2024 will exceed the concentration of rocket fire during any other period of the year 2024
Here is the video predicting the escalated rocket fire for the year 2024

The Armaaruss Project

June 27, 2024

Here in this video uploaded on June 27, 2024 after Iran launches first attack against Israel in April of 2024, I confirms my prior prediction and declare the prediction fulfilled

https://www.youtube.com/watch?v=VaVX_azdcDA

Here we are, the fifth consecutive year that I've called down fire from heaven. Last year, I made the prediction that in 2024, the number of rockets fired into Israel when Mars will be within 30° of the lunar node between April 12th, 2024, and June 25th, 2024, would exceed the amount of rockets fired at any other point during the year, and that's exactly what happened thus far.

In 2024, starting in January, we see that the number of rockets fired from Gaza and from Lebanon were roughly 691. In February, the number was 699 rockets that were fired from Lebanon and Gaza. In March, that number went up to 850, and in April, when Mars had gone within 30° of the lunar node on April 12th, the number began to rise significantly. On April 13th, Iran launched an unprecedented attack against the state of Israel, firing over 350 missiles and drones in what would be the largest attack carried out by Iran in its history. It was also the largest drone attack carried out by any military. So that's how the phase started off, and throughout the phase of Mars being within 30° of the lunar node between April 12th and June 25th, Hezbollah and Hamas continued to launch a significant number of rockets. In April, the number of rockets fired at Israel from Gaza, from Lebanon, and from Iran totaled a little over 1,000, which in itself was the highest amount of rockets fired at any month in the year 2024. The number of rockets into Israel continued to increase in May; the total number of rockets fired ended up being close to 1,500, and in June, the same thing. The number of rocket attacks continued in June; we'll end up seeing close to a thousand rockets being fired into Israel. But overall, in the

Mars within 30 degrees of the lunar node phase in 2024, between April 12th and June 25th, the overall number of rockets fired will total around a little over 3,000, and that's going to be the highest number thus far in the year. That's going to be the highest number of rockets fired thus far relative to any other point in the year.

So this is the fifth consecutive year that I have been accurate in predicting when the highest concentration of rocket fire against Israel would occur. Back in 2019, I had predicted that in 2020, the concentration of rocket fire into Israel between January 15th, 2020, and April 3rd, 2020, when Mars would be within 30 degrees of the lunar node, would exceed the amount of rockets fired at any other point during the year, and that's exactly what happened. Back in February of 2020, well over a hundred rockets were fired at Israel, and that number turned out to be the highest compared to any other point in the year. In 2021, I did the same thing again, predicting that the concentration of rocket fire between February 9th, 2021, and May 13th, 2021, when Mars would be within 30 degrees of the lunar node, would exceed the amount of rockets fired at any other point during the year, and that turned out to be the case. That year, in May, maybe a couple of days before the end of that Mars lunar node phase, Hamas had launched well over 4,000 rockets at the state of Israel. I then made the prediction for a third consecutive year, predicting well in advance that between June 22nd, 2022, and September 19th, 2022, when Mars would be within 30 degrees of the lunar node, the concentration of rocket fire into Israel during that time would exceed the amount of rocket fire at any other time during the year, and that turned out to be the case because, in August, Islamic Jihad fired around 1,100 rockets at the state of Israel. That number exceeded the amount fired at any other time in the year 2022.

And then again, in my most ominous prediction in 2023, I predicted that the concentration of rocket fire would occur. I predicted that the highest concentration of rocket fire against Israel would occur when Mars would be within 30° of the lunar node between August 24th, 2023, and November 15th, 2023, and of course, that turned out to be accurate because Hamas launched an unprecedented terror attack against Israel, killing 1,400 Israeli civilians and firing close to 10,000 rockets in that phase alone, and of course, that number exceeded the amount fired at any other point in the 2023.

Now, after having made these accurate predictions, I thought that would be enough to convey the message that I was trying to send as a prophet of Satan, explaining that Satan is behind all of this. He is using Mars as a vehicle to influence the enemies of Israel to attack Israel and spread anti-Semitism. So I went on to explain that Satan is willing to make a deal that he will back off, he will remove his influence from the enemies of Israel and compel them to attack Israel less if people on Earth would acknowledge Satan, acknowledge his existence in the form of building some effigy, some type of image, but through the prism of Mars, who I call Armaaruss in this generation. So after October 7th and after that phase of horror carried out by Hamas against Israel, I went on video and I explained that if you build an image of Armaaruss, the acceleration of violence when Mars would be within 30 degrees of the lunar node would begin to decline, but no one listened.

It seems like I'm the only one talking about Armaaruss, trying to put an image together, but that's not what's part of the deal. The people, you the witnesses, the Earth-dwellers, you have to carry out your end of the agreement.

So, fast forward to 2024, after having warned people that if they did not make this image to Armaaruss, the attacks against Israel will continue to accelerate when Mars would be within 30° of the lunar node. So in 2024, Mars went within 30° of the lunar node between April 12th and June 25th, and we see that during this phase, not only did Hezbollah from Lebanon and Iran carry out unprecedented attacks against Israel, but anti-Semitism began to spread all over the world. And of course, one can point out the atrocities carried out by Israel against the Palestinians as the impetus for all of that, but let me make it clear that Satan's goal is not to just influence the enemies of Israel to carry out attacks against the Jews, against Israelis, and attacks against the state of Israel. It's also to compel Israel to respond and respond in a very disproportionate way and carry out and exacerbate the amount of atrocities carried out when Mars is within 30 degrees of the lunar node. This is all part of Satan's plan.

So, in saying this, I'll reiterate again: please make an image to Armaaruss, give Satan what he wants. Otherwise, Satan is going to continue to use Mars as a vehicle to influence attacks and violence and terrorism against Israel, leading to a disproportionate Israeli response, which will just exacerbate the amount of violence in the region and eventually all over the world. So, for anyone out there, if you have any concern for Israel's existence as a state, you will build this image. That country, Israel, is surrounded by satanic Mars-influenced forces, and the god of Abraham is not coming to save them. He has abandoned Israel before, and he will do it again.

So listen up, you will build this image of Armaaruss, and you will corroborate the Mars 360 religious and social system where no one can buy or sell unless he has identified himself with the Mars influence personality characteristics laid out in that system. You have until June 5th, 2025, to make this happen. If you refuse, Mars launches the rockets. If you laugh, Mars launches the rockets. You have until June 5th, 2025, to arrange the construction of Armaaruss. Mars is aware of the god of Abraham, you know, and I know, after having seen what Mars is capable of, that the god of Abraham doesn't stand a chance.

This is another warning: if there is no Armaaruss, if there is no construction of Armaaruss, if there is no making the image of Armaaruss, then expect the highest concentration of rocket fire to occur in 2025 between June 5th, 2025, and September 4th, 2025, when Mars will be within 30 degrees of the lunar node. This is the sixth consecutive year that I'm calling down fire from heaven. This is Anthony of Boston, out.

August 11, 2024

In this video uploaded August 11 2024, I call down fire for the sixth consecutive year and warns everyone of the consequences of not making an image to Armaaruss

https://www.youtube.com/watch?v=yjZx0orGeZ4

Alright, we have a very serious problem right now. Satan is not happy at all. Here we are in the fifth year that I've been accurate in predicting when the highest concentration of rocket fire against Israel would occur, and this was all part of a revelation from Satan to use me to show you how he conducts his operations, which is to basically influence the enemies of Israel to launch the greatest amount of attacks when Mars is within 30 degrees of the lunar node within a calendar year. Now, I've laid all of this information out since 2019, having been accurate every single year since then in explaining when the highest concentration of rocket attacks against Israel would occur.

Throughout this period of calling down fire from heaven, I've made the request at the behest of Satan that you make an image of Armaaruss, which is an amalgamation of the gods of war, Aries, Mars, and Horus. I've also made it clear that if this request was carried out, that you make an image to Armaaruss, Satan would begin to reduce his influence on the enemies of Israel, thereby leading to stability in the Middle East and other areas of the world. But now, it seems that five consecutive years of calling down fire from heaven is not going to be enough to convince the people out there that Satan is a formidable entity that should be engaged, that should be listened to.

Now, if the last five years weren't enough to convince you that Satan is using Mars to channel his influence to the enemies of Israel so that they attack Israel and

spread antisemitism all over the world, it has to be made clear that if his requests aren't carried out, he's going to continue down this same path, taking the level of violence and the escalation higher and higher until he does get your attention. I'm just a messenger in this regard. I'm just here to convey this message, and I hope and I urge people to listen to what I have been saying since 2019. I can't convey enough just exactly how frustrated Satan is right now. I mean, even this past year, in this fifth consecutive year of calling down fire from heaven, during which time, between April 12th and June 25th, when Mars was within 30 degrees of the lunar node, Iran had launched its first major attack against the state of Israel, and even that, after that happened within the predicted time frame, was not enough to convince the people that this is a formidable entity that we need to pay attention to, and we should thus pay heed to the request that we do make some sort of an image to Mars or Armaaruss.

We are a few months after the Mars within 30 degrees of the lunar node phase has ended, having seen how not only can Satan, via Mars, bring fire down from heaven, he can also withhold it because after the phase ended, this was after June 25th, going into late July and August, there were a series of events in Israel that would have led anyone to rationally conclude that a major escalation was going to happen outside of Mars being within 30 degrees of the lunar node, which would have debunked everything I have been saying all along that the highest concentration of rocket fire or violence or attacks against Israel would only happen when Mars is within 30 degrees of the lunar node. But now, we have a series of events that have occurred that we could have easily concluded that, okay, now this is the time when a major war, a major conflict is going to break out in the Middle East, but none of that has happened.

In late July, there was an attack by Hezbollah which led to a number of Israeli civilians getting killed, and in response, Israel conducted a series of assassinations on Lebanese soil and also Iranian soil. But still, in all, there hasn't been any major escalation at the moment. The escalation that happened back in May is still the highest for the year, and May, that's around the middle of the Mars within 30 degrees of the lunar node phase. So, at the moment, that month still contains the highest concentration of rocket fire relative to the rest of the year. After Israel launched a series of assassinations in Lebanon and Iran, combined with the subsequent mobilization conducted by all nations in all three nations involved, I mean, there was significant troop movement in Israel, there was also a large mobilization in Lebanon and a major mobilization in Iran, and still, there hasn't been anything, any meaningful escalation that has occurred as of now.

So, this past year is an example of how Satan can both bring down fire and he can also withhold it, which is miraculous, which should be enough to convey to you that, yeah, Satan is active, he's using Mars as a vehicle to control the situation in the Middle East, and for that reason alone, we should listen, we should take heed to his request that we make some sort of an effigy in the form of Armaaruss so that he could have a dwelling place here on Earth. And in exchange for that, of course, he's going to reduce his influence on Israel's enemies, and you will see less rocket

attacks, and we'll see peace not only in the Middle East, but it should have a residual effect on the entire world.

But at the moment, I don't see any signs of anyone taking it upon themselves to get the image of Armaarusscreated. I don't understand all the apprehension. This has been five consecutive years that I have been able to predict when the highest concentration of rocket fire against Israel would occur within a calendar year, all by observing when Mars would be within 30 degrees of the lunar node. So, if five years of demonstrating this and being accurate is not enough to convince you, then I would have to continue to call down fire from heaven and do so for a sixth consecutive year.

But before I do that, let's go ahead and recap again. The first time that I called down fire from heaven was back in 2019, and I made the prediction for 2020 that when Mars would be within 30 degrees of the lunar node, between January 15th and April 3rd of 2020, Israel's enemies would launch their highest concentration of rocket fire relative to the rest of the year, and of course, that's exactly what happened because in February of 2020, Gaza militants fired a little over 100 rockets in that time, and that turned out to be the highest concentration of rocket fire compared to any other point in the year 2020.

And then, later in 2020, I made the prediction for the year 2021, calling down fire by predicting that the highest concentration of rocket fire in 2021 would occur between February 9th and May 13th when Mars would be within 30 degrees of the lunar node, and of course, that's exactly what happened in 2021 when Hamas, just a few days before the Mars lunar node phase ended, Hamas had fired over 4,000 rockets at the state of Israel.

And then, in 2022, a few months in advance, I called down fire from heaven again, predicting that the highest concentration of rocket fire against Israel would occur when Mars would be within 30 degrees of the lunar node between June 22nd, 2022, and September 19th, 2022, and look back, that's exactly what happened. Islamic Jihad fired a little over 1,100 rockets in August of that year, right in the middle of the Mars within 30 degrees of the lunar node.

For the fourth consecutive year, I made the prediction again that for the year 2023, the highest concentration of rocket fire would occur between August 24th, 2023, and November 15th, 2023, and of course, we all know what happened during that time frame. That's when Hamas carried out its most vicious attack against the state of Israel, firing 10,000 rockets while Mars was within 30 degrees of the lunar node, and of course, that number exceeded the amount fired at any other time in the year.

And then, for the fifth consecutive year, which I thought would be enough to convince you that we need to make an image to Armaaruss in order to try and mitigate this malign influence of Mars, I made the prediction in 2024 that the highest concentration of rocket fire against Israel would occur when Mars would be within 30 degrees of the lunar node between April 12th, 2024, and June 25th,

2024, and looking back, so far, that has been accurate because within that time, Hamas, Islamic Jihad, Iran, and Hezbollah have fired a combined, I want to say, close to 3,600 rockets during that time, and of course, that number exceeds the amount fired at any other time during the year.

So now, if Armaaruss is not going to be created and you have ultimately decided to see where this Mars influence goes, I will call down fire from heaven again in the year 2025. In the year 2025, Mars will be within 30 degrees of the lunar node between June 5th, 2025, and September 4th, 2025, and during that time, the enemies of Israel will fire their highest concentration of rocket fire and missile fire against Israel, and that number will exceed the amount of rocket fire at any other time during the year 2025.

Okay, so this is the sixth consecutive year I'm going to call down fire from heaven. In the year 2025, expect the highest concentration of rocket fire against Israel to occur when Mars will be within 30 degrees of the lunar node between June 5th, 2025, and September 4th, 2025, and the amount of rocket fire fired during that time will exceed the amount fired at any other time during the year. So, this is the sixth consecutive year that I'm calling down fire from heaven because many of you are refusing to make an image to Armaaruss.

If you create an image to Armaaruss, all of this can be stopped. This malign influence of Mars on the enemies of Israel would be reduced, and there would be some measure of peace and hope and stability. But as you continue to decline, expect to see an increasing level of violence against Israel, the large-scale spread of antisemitism to reach its apex within a given year when Mars is within 30 degrees of the lunar node.

So, I've made it clear that Satan has been using me as his prophet to explain to you how he conducts his operations in the hopes that you would engage him and listen to his requests. So far, he's been very disappointed, so the fire from heaven will continue as planned, and don't expect the world to veer off the trajectory of destruction that it is currently on. That will not happen until you decide to create the image of Armaaruss.

So, this is the sixth consecutive year. It seems like many of you have decided to go ahead and watch all of this play out. So, in 2025, expect the highest concentration of rocket fire against Israel to occur when Mars is within 30 degrees of the lunar node between June 5th, 2025, and September 4th, 2025. The enemies of Israel will conduct their greatest number of attacks during that time frame relative to the rest of the year in 2025. This is Anthony of Boston out.

January 29, 2025 (Memorandum)

I published a 2025 memo to Reddit on the r/RedScarePod subreddit on January 29, 2025, five months before the window opened, clarifying the 2025 prediction by explicitly stating that Operation True Promise III would commence between June 5th and September 4th of 2025

In 2024, we saw other actors get involved in rocket attacks. While Hezbollah,s major escalation against Israel occurred outside of Mars being within 30 degrees of the lunar node later in the year, Iran and other actors, however, launched their major escalation against Israel while Mars was within 30 degrees of the lunar node between April 13th and June 25th 2024. On April 14th 2024, Iran launched its first major assault against a soverign power, firing 350 projectiles at Israel in the form of drones and rockets in what would be the largest drone attack ever carried out against a nation state. Even the Iran missile attack later that year against Israel did not exceed the number of projectiles of the first attack in April. Thus, we can gather that Iran is on the same attack timeline as Hamas and other Gaza militants and should be expected to commence Operation True Promise III between June 5th 2025 and September 4th 2025, with a target date around July 23rd, 2025 which is when Mars will be very close to the lunar node. Gaza militants will demonstrate a show of force during this time as well, continuing with the same pattern of escalated rocket fire coinciding with Mars being within 30 degrees of the lunar node. Overall, expect the highest concentration of missile attacks against Israel during the year of 2025 to occur while Mars is within 30 degrees of the lunar node between June 5th 2025 and September 4th 2025.
Mars influence in this regard, while largely concentrated towards Israel, does expand to the rest of the world in the form of antisemitic inspired attacks. Synagogues around the world should be on high alert for this reason. It is warned that Israel,s main ally will be afflicted by Mars being within 30 degrees of the lunar node as well and thus will not be able to respond to the major assault of 2025 that will lead to the loss of Israeli territory for the first time in its history.
When it comes to Israel, Mars serves as a celestial warning that is implicated as a longstanding enemy of Israel and

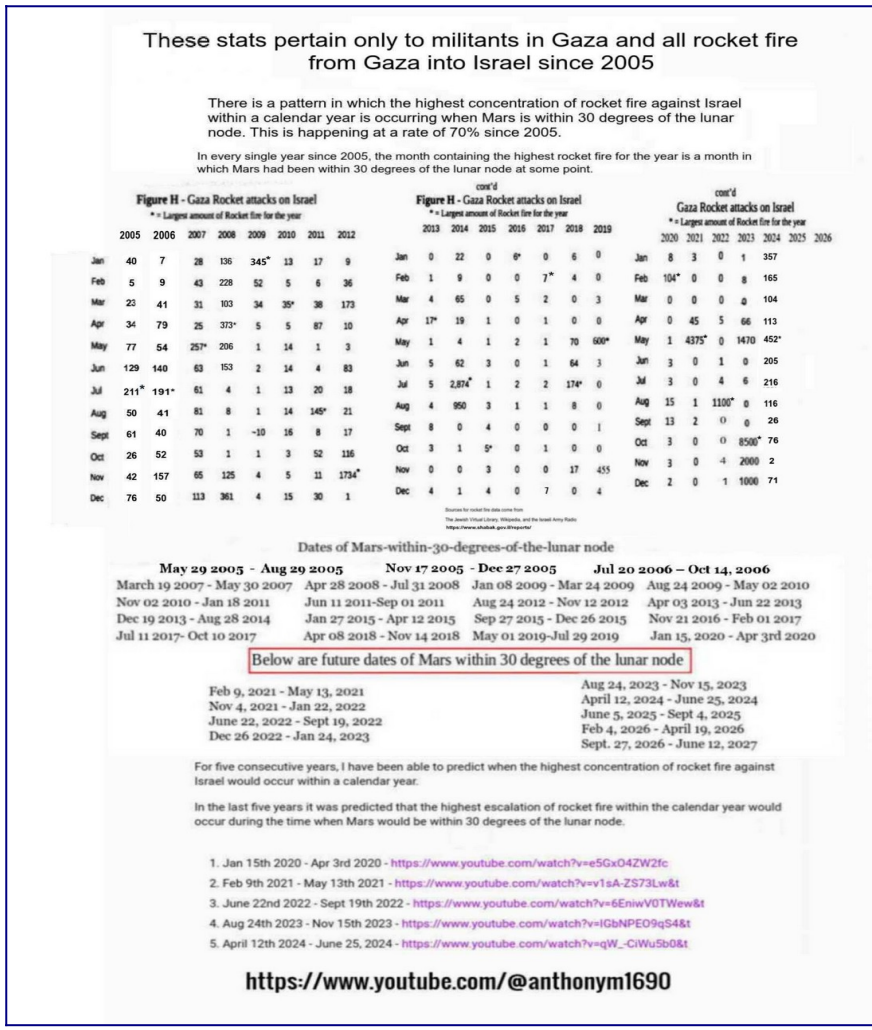
A_2024_Memorandum_to_the_State_of_Israel

For five consecutive years, Gaza militants have fired its highest concentration of rockets at Israel, relative to the year, within the same planetary configuration of Mars being within 30 degrees of the lunar node. This held true, even on October 7th 2023 and thereafter in 2024, and will be the case in 2025.

At a probability rate of 100%, the month with the highest concentration of rocket fire from Gaza within the calendar year since 2005, is the month during which Mars is within 30 degrees of the lunar node. Since 2019, via youtube, social media, and academic papers in the form of memorandums, I have accurately predicted and assessed based on that very data, when Israel should have expected escalation to occur. Some of this information was sent to Israeli officials. Here is the data. The month with the asterisk indicates month with highest rocket total compared to other months of the year. Every single year, that month coincided with Mars within 30 degrees of the lunar node.



These stats pertain only to militants in Gaza and all rocket fire from Gaza into Israel since 2005

There is a pattern in which the highest concentration of rocket fire against Israel within a calendar year is occurring when Mars is within 30 degrees of the lunar node. This is happening at a rate of 70% since 2005.

In every single year since 2005, the month containing the highest rocket fire for the year is a month in which Mars had been within 30 degrees of the lunar node at some point.

Feb 4, 2026 - April 19, 2026
Sept. 27, 2026 - June 12, 2027

For five consecutive years, I have been able to predict when the highest concentration of rocket fire against Israel would occur within a calendar year.

In the last five years it was predicted that the highest escalation of rocket fire within the calendar year would occur during the time when Mars would be within 30 degrees of the lunar node.

1. Jan 15th 2020 - Apr 3rd 2020 - https://www.youtube.com/watch?v=e5Gx04ZW2fc

In 2024, we saw other actors get involved in rocket attacks. While Hezbollah,s major escalation against Israel occurred outside of Mars being within 30 degrees of the lunar node later in the year, Iran and other actors, however, launched their major escalation against Israel while Mars was within 30 degrees of the lunar node between April 13th and June 25th 2024. On April 14th 2024, Iran launched its first major assault against a soverign power, firing 350 projectiles at Israel in the form of drones and rockets in what would be the largest drone attack ever carried out against a nation state. Even the Iran missile attack later that year against Israel did not exceed the number of projectiles of the first attack in April. Thus, we can gather that Iran is on the same attack timeline as Hamas and other Gaza militants

and should be expected to commence Operation True Promise III between June 5th 2025 and September 4th 2025, with a target date around July 23rd, 2025 which is when Mars will be very close to the lunar node. Gaza militants will demonstrate a show of force during this time as well, continuing with the same pattern of escalated rocket fire coinciding with Mars being within 30 degrees of the lunar node. Overall, expect the highest concentration of missile attacks against Israel during the year of 2025 to occur while Mars is within 30 degrees of the lunar node between June 5th 2025 and September 4th 2025.
Mars influence in this regard, while largely concentrated towards Israel, does expand to the rest of the world in the form of antisemitic inspired attacks. Synagogues around the world should be on high alert for this reason. It is warned that Israel,s main ally will be afflicted by Mars being within 30 degrees of the lunar node as well and thus will not be able to respond to the major assault of 2025 that will lead to the loss of Israeli territory for the first time in its history.

When it comes to Israel, Mars serves as a celestial warning that is implicated as a longstanding enemy of Israel and harbinger of terror, serving as the dwelling place for all the gods of war that have operated throughout history. Even the Romans used Mars to sack the Jewish temple in 70AD. The Talmud associates Mars with Samael, the archenemy of the Jewish people. Here is data that links Mars to the most significant periods in history, among which are attacks carried out in the name of antisemitism.

Urgently,

Anthony of Boston

-Jan 29, 2025

September 5, 2025

YouTube video entitled “Calling down fire from heaven. I predicted that escalation against Israel would occur between Feb 4 2026 and Apr 19 2026” This video was uploaded on September 5th 2025

https://www.youtube.com/watch?v=xn5bD76AIMQ

Transcript of Anthony of Boston YouTube video uploaded on Sept 5th 2025:

The phase of Mars being within 30° of the lunar node between June 5th and September 4th has come to an end. It was predicted well in advance that this time frame of June 5th to September 4th would see an escalation of rocket fire against the state of Israel, and the concentration of rocket fire during that time would exceed the amount fired at any other time during the year. I also warned that if an image was not made to Armaaruss, the escalation against the state of Israel would have global ramifications. Many of you that have been witnessing this prophetic cycle have seen how I was able to predict these escalations well in advance over the past, over the previous years that I’ve been making these videos. And I warned in advance that the sixth consecutive year of calling down fire from heaven would be no different. I predicted that between June 5th and September 4th, while Mars would be within 30° of the lunar node, the enemies of Israel would fire their highest concentration of rocket and missile fire. I gave a clear warning that if the image of Armaaruss was not created before June 5th, that the enemies of Israel will fire significant amount of rockets and missiles at Israel, and the ramifications would be global, spreading to other parts of the world.Now that this phase is over, this phase of Mars being within 30 degrees of the lunar node between June 5th and September 4th, we can look back and see that everything that I predicted came to pass. On June 13th, in a retaliatory response, Iran fired 550 missiles at Israel along with a thousand drones over the course of 12 days. Many of the missiles fired from

Iran were fired right into Tel Aviv and caused significant destruction. And it was clear at that point that the residual effects of that would were going to have worldwide implications. But lucky for much of the world, someone had seen my predictions and witnessed what I've been able to forecast well in advance and contacted me and mentioned a desire to facilitate the creation of a Mars. This was an artist that contacted me. Her name was Jessica Mars. And this was, I want to say this was around June. She contacted me on June 24th, hours before the ceasefire had gone into effect. Based on what I've been articulating over the past six years, we can credit Jessica Mars's inquiry about creating an image of Armaaruss to the subsequent ceasefire that happened on June 24th between Israel and Iran. It is well within reason to conclude that Jessica Mars's initiative to push forward with creating the image led to the ceasefire and also quelled the potential catastrophe that was getting ready to happen all over the world as a result of this escalation of rocket fire into Israel. In fact, not just contacting me via email, Jessica Mars took it a step further. Her and her girlfriend Hypatia decided to come to Boston and pay me a visit. And the visit went well. And during the visit, speaking to both Hypatia and Jessica, both of whom had seen my videos of calling down fire from heaven and had bore witness to the accuracy of my predictions, a rough draft of Armaaruss that she had created, you know, between that time of June 24th and the time they came to visit me, which was August 7th. And the rough draft was beyond my expectations because I didn't think anyone would put the effort in to do it. But someone decided to finally do it. And now we have an image of Armaaruss.

I made the announcement on Reddit on August 12th that this is the look for Armaaruss. This is the image, and this will be the standard that all other depictions of him will be judged by. Here is the rough draft that Jessica Mars had presented to me and of which I shared on August 12th, 2025, in the middle of the Mars was in 30° of the lunar node phase. This is the image, here is Jessica Mars's Instagram account. So now what we have here is we have an official image of Armaaruss, and we can confirm that his creation led to the ceasefire between Israel and Iran and mitigated the dangers of that conflict spreading to other parts of the world, particularly the United States. And we can see that looking back, if we go back to August 12th, when I first presented the image, that much of the grim prognosis, much of the grim outlook in regards to Israel and the West has not manifested as previously as predicted beforehand. Mars doesn't just influence the enemies of Israel and rocket fire and wars. It can also influence stock market crashes. It can influence natural disasters. And we can see that there has been somewhat, we can see that the rate of these happening during this Mars, during the Mars within 30° of the lunar node phase began to abate somewhat after August 12th. And, you know, now that the phase has ended, we can see that Satan kept his promise because he was getting ready to destroy much of the world during this phase. And had it not been for Jessica Mars, we can't even calculate how extensive the damage around the world would have been had she not created the image of Armaaruss. And I articulated this quite assertively over the past, you know, six years that if you don't make an image to Armaaruss, the impact of Mars being

within 30° of the lunar node would continue, would continue to become more and more extensive.

So there it is. So there it is. Now we have Armaaruss, the image, and we can now end this prophetic cycle of calling down fire from heaven for the last 6 years. In 2020, I predicted that when Mars would be within 30 degrees of the lunar node between January 15th and April 3rd, the Gaza militants would fire their highest concentration of rocket fire during that time. And the amount during that time would exceed the amount fired at any other time during the year. That's what happened because in February there was a little over a 100 rockets fired, and that number exceeded the amount fired at any other time during the year in 2020. And later in the year 2020, I made a prediction for the year 2021 that the same thing would apply, that the Gaza militants would fire their highest concentration of rockets during the time when Mars would be within 30° of the lunar node between February 9th and May 13th. And of course, that's when the Gaza war took place. That's another accurate prediction. That was two years in a row. I did it again the third year in a row when I predicted that Gaza militants would fire their highest concentration of rockets, missiles between June 22nd and September 19th when Mars was within 30° of the lunar node. That happened, and then of course the most ominous 2023, when Mars went within 30° of the lunar node, as predicted, the highest concentration of rocket fire from Gaza into Israel far exceeded the amount at any other time during the year, there were 10,000 rockets fired during that period between August 24th 2023 and November 15th 2023 when Mars was within 30° of the lunar node, and of course again in 2024. It was predicted in advance that the enemies of Israel would fire their highest concentration of rockets and missiles at Israel when Mars would be within 30° of the lunar node between April 12th and June 25th. And during that time, a critical escalation occurred when Iran fired 350 drones and missiles at Israel in what was his first direct attack against the country. And at that point, it had been five years in a row. I have been in the intervening period. I had been making requests that people make an image of Armaaruss. Still, no one decided to even make the attempt. Not so much as to draft up stick figures or just something simple. There was no attempt made to make the image of Armaaruss. It's as if no one was convinced after 5 years of calling down fire from heaven. And then I did it a sixth year in a row. And this time it was critical. Between June 5th and September 4th, 2025, that's when the 12-day war occurred. Iran would have destroyed Tel Aviv, and the residual impact of that would have been regional and then global, and we would be looking at World War II right now. Of all the people that had witnessed what I have done, only one person came forward to make the image of Armaaruss, and that was Jessica Mars. And we should all be grateful for what she did. And now this has become the standard. We can end this prophetic cycle of calling down fire from heaven at the behest of Satan and shift to another prophetic cycle that focuses on Armaaruss.

Here in this video, I intercede on behalf of humanity and request that Armaaruss answer prayers and provide revelations to others who are willing to take the mark on the right hand or on the forehead. Now that the satanic revelations have taken

their course, and we're able to transition into this next cycle with Armaaruss at the center as the central godhead, I can now as Armaaruss's prophet continue forward with revelations, and as he has instructed, I will now articulate what this next cycle is about. Making an image of Armaaruss was about getting in contact with forces that humanity has been compelled to ignore for centuries. And it was promised that if the image of Armaaruss was created, and it was just in time, that the violence and the escalation would begin to quell. And it did quell after August 12th. I mean, the ceasefire has held up since Jessica contacted me about making the image. The ceasefire has held up so far. But now in this new cycle with Armaaruss at the helm, and keep in mind, Satan is now part of a trinity with Armaaruss and Mars 360. That's why I insist that when conducting prayers to Armaaruss, that you would first mark yourself on the right hand with Mars 360 or on the forehead with Mars 360, and then you could begin conducting prayers, and if Armaaruss hears your prayers, then he himself will grant you personal revelations. But as his prophet, my duty is to continue forward and cultivate this new paradigm. Now, so now I'll be giving revelations that come directly from Armaaruss. What Armaaruss wants is worship, and he is looking for some measure of frustration or some means that would allow him to be worshiped in a public sense. And his demands are no less great than Satan's demands.

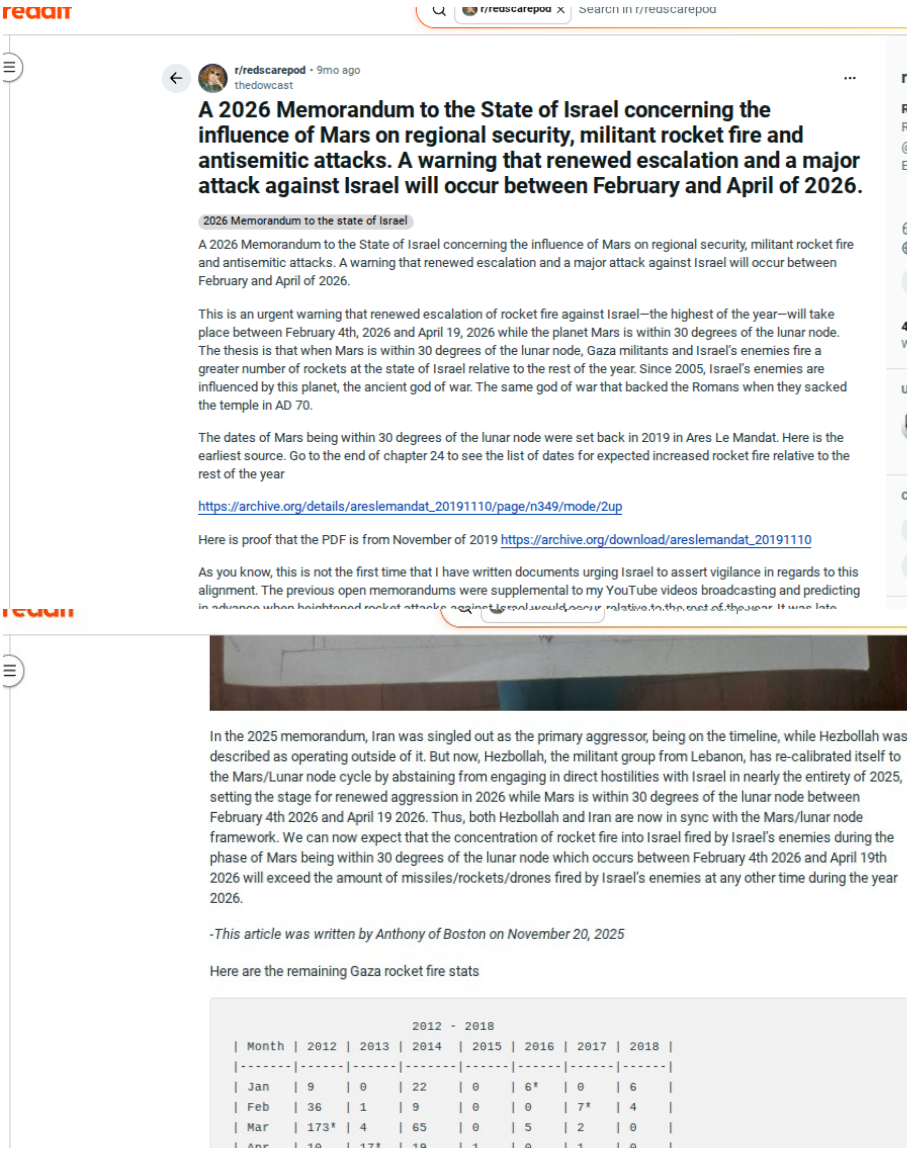
So I will persuade the people that are watching this video to take the initiative, take this image of Armaaruss as created by Jessica Mars, whom we all should be thankful for. Post it on a wall and begin to worship the image. Mark yourself on the right hand with Mars 360 or on the forehead with Mars 360 and conduct prayers to Armaaruss. This is the time that we go after other gods. This is a new paradigm, and future escalations will be contingent on humanity's inclination to move towards venerating, acknowledging, worshiping Armaaruss. The future of missile fire and rocket fire and the global ramifications will hinge on your desire to please Armaaruss. So now having given Armaaruss the ability to speak, I will convey his new revelation that if he doesn't see any prominent or any significant increase in the amount of people that are acknowledging his godship, are acknowledging his status as the true Lord and Savior of this world, then the rocket fire and the missile fire will continue. So this is Armaaruss talking now. I'm giving you new revelation. So from this day forward, it is humanity's duty and those who have been watching my videos and watching me call down fire from heaven to take the initiative and present Armaaruss publicly. Gather a group, get a group of people, go out in public and prostrate yourselves first. Mark yourselves on the right hand or forehead with Mars 360 and then prostrate yourselves before the image of Armaaruss. Not pushing forward in this direction will have serious ramifications. Yes, Satan. It was very clear that Satan wanted the image of Armaaruss made, and that if the image was made, there would be a reduction in conflict. And that did happen. We would be looking at World War II right now. Had the image not been made in August, had the image not been made and presented in August, we would be looking at World War II right now. There would be scores of people dying, and there would be no way I could get this information out to you. But since the image was made, we now have, we've now been given a

second chance. And my prediction was pretty clear that, you know, if ignoring these requests, we're going to have very, very, very serious consequences.

But now the image of Armaaruss is created, and Satan kept his promise. We've made it through June 5th through, we've made it through the last phase of Mars being within 30° of the lunar node between June 5th and September 4th. But now under this new paradigm with Armaaruss at the helm, we have a new mission. We have to promote him and we have to venerate him. And I've given you instructions on how to do that. So, you have until February 4th, 2026 to get a movement together, cultivate this new deity, and present him to the public. Go out and worship and proclaim your allegiance to Armaaruss. Shout his name to the mountain tops. So if you remain reticent in regards to this, then expect the fire from heaven to continue. So I'm going to go ahead and let you make the decision, and I will now call down fire from heaven for the year 2026. Between February 4th, 2026 and April 19th, 2026, when Mars will be within 30 degrees of the lunar node, expect the enemies of Israel to fire their highest concentration of missile and rocket fire during that time, and expect the concentration of missile and rocket fired during that time to exceed the amount at any other time during the year. So, I'm calling down fire from heaven for the seventh consecutive year. Between February 4th, 2026 and April 19th, 2026, when Mars will be within 30° of the lunar node, expect the amount of rockets fired and the amount of missiles fired during that time at the state of Israel to exceed the amount fired at any other time during the year. And the ramifications will extend beyond Israel if you do not push forward in publicly acknowledging Armaaruss, setting up communities that cultivate them and marking yourselves on the right hand or the forehead with Mars 360. So I've given a clear warning here. This is a new paradigm that we're under. This is a new cycle. I'm operating as the prophet of Armaaruss. Satan is now part of a trinity with himself, Armaaruss, and Mars 360 operating as a triune force. And this is it. This is the seventh consecutive year that I'm calling down fire from heaven.

November 20, 2025 (Memorandum)

Anthony published a 2026 memo to Reddit on the r/RedScarePod subreddit on November 20, 2025, four months before the window opened, clarifying the 2026 prediction by explicitly stating that Hezbollah and Iran would escalate together between February 4th and April 19th



r/redscarepod • 9mo ago
thedowcast

A 2026 Memorandum to the State of Israel concerning the influence of Mars on regional security, militant rocket fire and antisemitic attacks. A warning that renewed escalation and a major attack against Israel will occur between February and April of 2026.

2026 Memorandum to the state of Israel

A 2026 Memorandum to the State of Israel concerning the influence of Mars on regional security, militant rocket fire and antisemitic attacks. A warning that renewed escalation and a major attack against Israel will occur between February and April of 2026.

This is an urgent warning that renewed escalation of rocket fire against Israel—the highest of the year—will take place between February 4th, 2026 and April 19, 2026 while the planet Mars is within 30 degrees of the lunar node. The thesis is that when Mars is within 30 degrees of the lunar node, Gaza militants and Israel's enemies fire a greater number of rockets at the state of Israel relative to the rest of the year. Since 2005, Israel's enemies are influenced by this planet, the ancient god of war. The same god of war that backed the Romans when they sacked the temple in AD 70.

The dates of Mars being within 30 degrees of the lunar node were set back in 2019 in Ares Le Mandat. Here is the earliest source. Go to the end of chapter 24 to see the list of dates for expected increased rocket fire relative to the rest of the year

https://archive.org/details/areslemandat_20191110/page/n349/mode/2up

Here is proof that the PDF is from November of 2019 https://archive.org/download/areslemandat_20191110

As you know, this is not the first time that I have written documents urging Israel to assert vigilance in regards to this alignment. The previous open memorandums were supplemental to my YouTube videos broadcasting and predicting

In the 2025 memorandum, Iran was singled out as the primary aggressor, being on the timeline, while Hezbollah was described as operating outside of it. But now, Hezbollah, the militant group from Lebanon, has re-calibrated itself to the Mars/Lunar node cycle by abstaining from engaging in direct hostilities with Israel in nearly the entirety of 2025, setting the stage for renewed aggression in 2026 while Mars is within 30 degrees of the lunar node between February 4th 2026 and April 19 2026. Thus, both Hezbollah and Iran are now in sync with the Mars/lunar node framework. We can now expect that the concentration of rocket fire into Israel fired by Israel's enemies during the phase of Mars being within 30 degrees of the lunar node which occurs between February 4th 2026 and April 19th 2026 will exceed the amount of missiles/rockets/drones fired by Israel's enemies at any other time during the year 2026.

https://archive.org/download/areslemandat_20191110
As you know, this is not the first time that I have written documents urging Israel to assert vigilance in regards to this alignment. The previous open memorandums were supplemental to my YouTube videos broadcasting and predicting in advance when heightened rocket attacks against Israel would occur, relative to the rest of the year. It was late 2019 when I first presented this link between escalated Gaza militant rocket fire into Israel and the configuration of Mars aligning within 30 degrees of the lunar node.

While attacks against Israel are year round, my research discovered an annual intermittent phase of heightened aggression from Gaza, which stood out compared to other times of the year. It was these periodic spikes in rocket attacks against Israel that I was able to trace back to the celestial configuration between Mars and the lunar node. While unorthodox, the pattern that I identified allowed me to forecast the October 7th 2023 Hamas attack with profound accuracy, outperforming all other models used to anticipate escalation periods, even those applied by major intelligence agencies like the CIA or Mossad. Later, when I expanded my scope from just Gaza rocket fire to rocket fire from both the Gaza militants and the "enemies of Israel", I was able to forecast the timing of the multi-

front attack from Iran and all its proxies in April of 2024 and later—in name, the timeframe that Operation True Promise III would commence in 2025.

This all happened over a six year span—predictions in real time and before the fact, when the highest concentration of rocket fire against Israel would occur. From 2020 - 2023, when my forecasts specified for the highest annual phase of rocket escalation from Gaza into Israel to coincide with the Mars-within-30-degrees-of-the-lunar node (Mars/Lunar node) window, the result showed a 100% accuracy rate. This accuracy continued in 2024, after I expanded the scope of enemy rocket fire to include both Gaza militants and the the enemies of Israel. This intuition applied to 2024's forecast resulted in accurately predicting the only synchronized coalition attack of that year when Iran's April 13th multi-front attack against Israel coincided with the Mars/lunar node window between April 12 and June 25th. In 2025, via YouTube and a 2025 memo to the state of Israel, I successfully forewarned that Operation True Promise III would commence during the Mars/lunar node window between June 5th and September 4th of 2025. That year, I essentially singled out Iran as the primary component while also anticipating continued fire from Gaza and its pattern of peak month rocket fire coinciding the Mars/Lunar node window.

The pattern has been consistent throughout. Even the very first prediction, which was posted on my YouTube channel in late 2019 and forewarned that escalation of rocket attacks from Gaza in 2020 would coincide with the Mars/lunar node alignment within 30 degrees between January 15th and April 3rd, turned out to be accurate with over 100 fired by Islamic Jihad in February alone. While not an intense year of fighting, 2020's monthly tallies would show that the annual phase of heightened aggression from Gaza occurred precisely during the predicted window.

Another prediction was made again for 2021 that the highest concentration of rocket fire from Gaza into Israel would occur during the time when Mars would be within 30 degrees of the lunar node between Feb 9 and May 13th. During this period, the Gaza war took place, as Hamas would fire over 4000 rockets at Israel, starting May 10 of 2021.

These predictions continued through 2022, 2023, 2024 and 2025 with profound accuracy. Here are the updated rocket fire stats. Staring with the most recent years 2019 – 2025 (notice the asterisk and the month it coincides with):

2019 – 2025 = GAZA ROCKET ATTACKS AGAINST ISRAEL
2024(Apr) and 2025(Jun) = includes GAZA, IRAN/proxies and IRAN ROCKET ATTACKS AGAINST ISRAEL
* = Largest concentration of rocket fire for the year

2019 - 2025

Month	2019	2020	2021	2022	2023	2024	2025
Jan	0	8	3	0	1	357	24
Feb	0	104*	0	0	0	165	3
Mar	3	0	0	0	0	104	15
Apr	0	0	45	5	66	477*	20
May	600*	1	4375*	0	1470	452	35
Jun	3	3	0	1	0	205	1641*
Jul	0	3	0	4	6	216	46
Aug	0	15	1	1100*	0	116	0
Sep	13	2	2	0	0	26	0
Oct	0	3	0	0	8500*	76	13
Nov	455	3	0	4	2000	2	20
Dec	4	2	0	1	1000	71	-

Note: Peak rocket fire month from Gaza only in 2024 and 2025 were May and July respectively
The predicted windows of Mars being within 30 degrees of the lunar node during the last six years were:

Jan 15, 2020 – Apr 03, 2020

Feb 09, 2021 – May 13, 2021

Jun 22, 2022 – Sept 19, 2022

Aug 24, 2023 – Nov 15, 2023

Apr 12, 2024 – Jun 25, 2024

Jun 05, 2025 – Sept 04, 2025

October 7th, Iran's multi-front coalition attack in April of 2024, and Operation True Promise III in June of 2025 all coincided with the Mars/lunar node window, as predicted well in advance each time according to the metrics presented. During this period, YouTube predictions were supplemented with memorandums further elaborating on the forecast. Here are links to previous memorandums written to the state of Israel warning of escalation:

In 2026, the Mars alignment that accurately predicts the highest annual phase of heightened aggression occurs between Feb 4th 2026 and April 19 2026 when the planet Mars will be within 30 degrees of the lunar node.

Looking back in 2025, with Operation True Promise III coinciding with the Mars/lunar node phase between June 5 2025 and September 4 2025, we can confirm that the 2025 Memorandum to the State of Israel was accurate in its assessment—both in its prediction of Operation True Promise III and also for its prediction that the peak month of rocket attacks from Gaza would coincide with Mars being within 30 degrees of the lunar node. Operation True Promise III took place on June 13th 2025, and the peak month for rocket fire from Gaza was July—both of which coincided with the predicted window. One thing that did not transpire, however, of which was warned in the 2025 memorandum, was that Israel would lose territory for the first time. In retrospect, it's important to keep in mind that these warnings outlined in the memorandums also come with mitigating conditions—if fulfilled, leads to an abatement of hostilities. One such condition named was the construction or creation of an image of the god of war under the same model used to create the bronze serpent described in the Book of Numbers. My previous memorandums urged this creation of Armaaruss(god of war) so that aggression could subside.

It was later confirmed that the image of Armaaruss was created by Jessica Mars starting in June of 2025 and presented by me via Social Media in August of 2025 and later via YouTube in September of 2025. This coincided with an end to Operation True Promise III/12-Day war and a formal ceasefire between Israel and Hamas in October of 2025, followed by the release of hostages, effectively ending the prophetic cycle. This in effect stifled the final apex of the 2025 memorandum, which would have been World War III, catastrophic implosion of the United

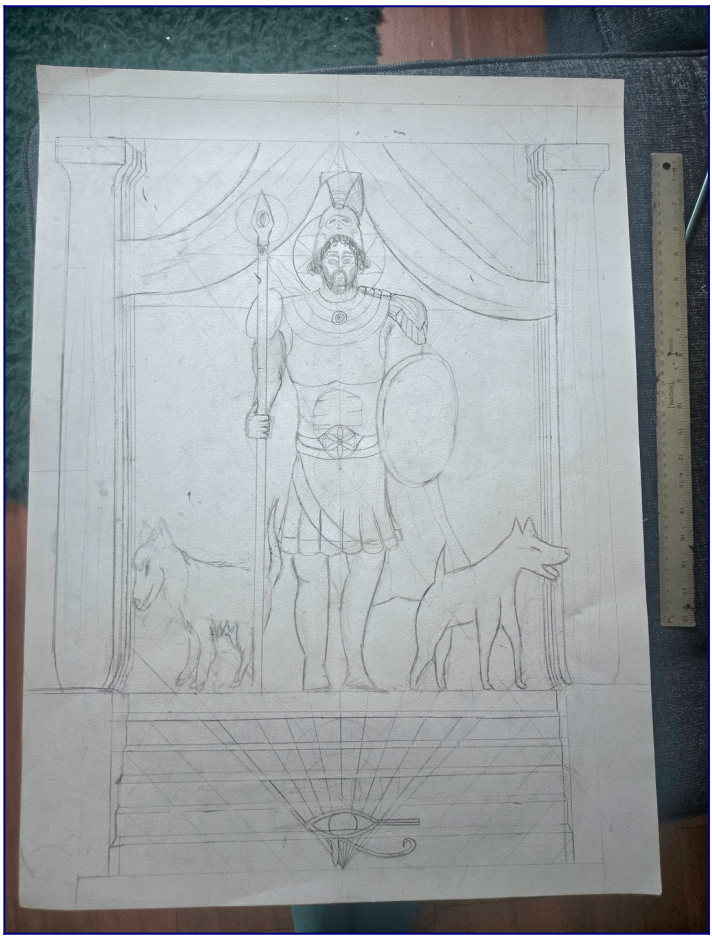
States, a major stock market crash, and a loss of territory for Israel, all of which were warned about in written memos, but are now temporarily abated with the creation of Armaaruss. Here are last year's memorandums to the US State dept and Institutional Investors about imminent societal collapse and a major stock market crash predicted to occur in the summer of 2025:

https://www.academia.edu/126779773/A_2025_Memorandum_to_the_US_State_department_concerning_the_imminent_catastrophic_implosion_of_the_United_States
https://www.academia.edu/127171531/

A_Memorandum_to_Institutional_Investors_warning_of_a_devastating_stock_market_and_economic_crash_to_occur_between_June_and_September_of_2025

Both outcomes were prevented, thanks in large part to the creation of the image of Armaaruss.

This 2026 memorandum is to inform you that those conditions only applied to Satan's demands. Now that Armaaruss's image has been created, a new set of demands are established which come directly from Armaaruss himself. The ultimate objective is that Armaaruss's current image is provided space for veneration at the Temple Mount/Al Aqsa, while lesser objectives call for public worship of the image where more than two people are prostrating themselves in front of it. Failure to comply with these dictates will lead to the resumption of intense projectile fire into Israel while Mars will be within 30 degrees of the lunar node between February 4th 2026 and April 19, 2026. And just as the fires of heaven expanded its scope by bringing fire into Israel from other parts of the region in 2024 and 2025, the next shift will involve an expansion of reach. Israel's greatest ally, the United States, faces the fires of heaven during same time period between February 4th and April 19th and should expect rocket fire into America during that time to exceed the amount fired at any other time during the year. Here is the current image of Armaaruss:



In the 2025 memorandum, Iran was singled out as the primary aggressor, being on the timeline, while Hezbollah was described as operating outside of it. But now, Hezbollah, the militant group from Lebanon, has re-calibrated itself to the Mars/Lunar node cycle by abstaining from engaging in direct hostilities with Israel in nearly the entirety of 2025, setting the stage for renewed aggression in 2026 while Mars is within 30 degrees of the lunar node between February 4th 2026 and April 19 2026. Thus, both Hezbollah and Iran are now in sync with the Mars/lunar node framework. We can now expect that the concentration of rocket fire into Israel fired by Israel's enemies during the phase of Mars being within 30 degrees of the lunar node which occurs between February 4th 2026 and April 19th 2026 will exceed the amount of missiles/rockets/drones fired by Israel's enemies at any other time during the year 2026.
